1. Application for Service

Applications for service are to be made at the office of the utility, either orally or in writing. An application does not bind the applicant to take service. If the prospective subscriber requests cancellation of an application, this will be done without charge unless instrumentalities have been installed. The regular tariff charge will be made for any instrumentalities that may have been installed. The utility may cancel the application if the prospective subscriber refuses to comply with tariff provisions. In the event of cancellation by the utility, no installation charges will apply.

An applicant for service who is indebted to the utility for previous service, may be required to overcome said indebtedness and/or make a deposit in accordance with the Deposit Rule, as the latter is set forth elsewhere in this tariff, before service is established.

2. Definition of Service

**BUSINESS SERVICE.** Service used for conducting business, professional or occupational activities. Where a business and residence occupy the same premises, an extension from a business primary station may take the residence classification if located in living quarters and used for social and domestic purposes.

**COMMISSION.** The regulatory body of the State of Washington, namely, the Washington Utilities and Transportation Commission.

**DATE OF PRESENTATION.** The date upon which a bill or notice is mailed, postage prepaid, in a sealed envelope properly addressed to the subscriber, or if not mailed, the date upon which that bill or notice is presented to the subscriber by a representative of the utility.

**DIRECTORY LISTINGS.** Essential information in the telephone directory or information records whereby telephone users may ascertain the telephone number of a listed subscriber station.

RULES AND REGULATIONS2. Definition of Service

**EXCHANGE AREA.** An area wherein the utility holds itself out to provide exchange service in accordance with the provisions of its tariff.

**EXCHANGE SERVICE.** Telephone service furnished between exchange stations connected with a common exchange.

**INDIVIDUAL LINE SERVICE.** A grade of exchange service furnished by means of a central office line arranged to serve one main station only, although additional stations may be connected to the line as extensions.

**PARTY LINE SERVICE.** A grade of exchange service furnished by means of a central office line arranged to serve more than one main station.

**RESIDENCE SERVICE.** A class of exchange service furnished to an individual at a residence or place of dwelling where the actual or obvious use of the service is for social or domestic purposes.

**SUBSCRIBER.** An individual or concern regularly receiving exchange telephone service under an application made to the utility for such service.

3. Reconnection

When service has been temporarily disconnected by request or action of the subscriber, the appropriate non-recurring charge named elsewhere in this tariff will apply to a subsequent reconnection.

In addition to the above, if a delinquency exists, the subscriber may be required to overcome the delinquency and/or make a deposit in accordance with the Deposit Rule, as the latter is set forth elsewhere in this tariff, before the service is reconnected.

RULES AND REGULATIONS**ORIGINAL**4. Service Connections

Except as otherwise provided in these rules and regulations, the utility will, at its own expense, furnish and install all wires necessary to serve applicants in accordance with its lawful rates, rules and regulations and in accordance with its established construction standards.

The interior wiring in buildings necessary to provide telephone service to the occupants shall be furnished and installed by the utility, and it shall not be required to connect its facilities and instrumentalities with interior wires furnished and installed by others.

5. Use of Service

The application of business or residence rates to private or public telephone service is governed by the actual or obvious use made of the service by the subscriber. If residence service is found to be used for business purposes, the utility will provide business service, except in cases where the subscriber will thereafter use the service for domestic or social requirements.

If it is found that the subscriber is sharing the use of his business service with an individual, other than an employee, member or officer of the subscriber's concern, or with another concern not of record as a joint user, the utility will thereafter require this subscriber to take "Joint User" service except where the subscriber permits no further joint use of the service after the matter has been called to his attention or where the joint user vacates the subscriber's premises or becomes a subscriber to business service in the same exchange.

6. Responsibility for, and Maintenance of, Service

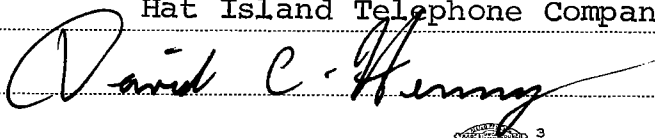

The utility considers that the subscriber is responsible for loss of or damage to any equipment or apparatus furnished by the utility, unless such loss or damage is due to causes beyond the subscriber's control.

All telephone equipment and apparatus furnished by the utility shall be carefully used and shall not be connected, disconnected, moved, or altered in any manner except by an authorized representative of the utility.

RULES AND REGULATIONS

7. Access to Premises

The utility shall be given the right of ingress to or egress from the subscriber's premises at all reasonable hours for any purpose reasonably connected with the furnishing of telephone service and to exercise any and all rights secured to it by law or these rules.

8. Interruptions to Service

When there occurs a service interruption of more than twenty-four hours' duration, the utility will, after verifying the interruption, abate the exchange service charge for the total period during which subscribers had no service. In any one month the total of the adjustments made by the utility because of interruptions will not exceed the charge for a full month's service.

9. Bills

Bills for flat rate exchange service may be rendered in advance and are due and payable upon presentation. Bills for interexchange service will be rendered in arrears, and in general will be presented with the bills for exchange service. Unless otherwise indicated in the rate schedules, the regular billing period will be once each month. If, however, it appears necessary or advisable, bills may be rendered at more frequent intervals.

10. Establishment of Credit and Deposits

(1) Establishment of credit and deposits, to the extent required by the utility, and guarantees in lieu of deposits shall be in accordance with WAC 480-120-122 through WAC 480-120-125, WAC 480-120-127 and WAC 480-120-128.

(2) Failure to make a deposit requested by the utility in accordance with (1) above may result in discontinuance of service or the application of toll restriction. The utility may make a charge, specified in its Tariff, for re-establishment of service when service has been discontinued for failure to make a requested deposit. See Schedule 13.

RULES AND REGULATIONS**ORIGINAL**12. Temporary Service or Speculative Projects (Continued)A. Temporary Service

1. The provisions of this rule relative to temporary service are intended to compensate the utility for the costs it may incur in connection with the furnishing of temporary service and to afford protection to the utility against loss in revenue from services of a temporary nature. Such services include those rendered to contractors for use during the construction of a building, service to a convention, circus, resort, guests at resorts and other cases of a similar nature, where it is definitely known that service will be required for a relatively short period.

2. Each applicant for service may be required to pay to the utility in advance or otherwise, as the utility may elect, the net cost of installing and removing any facilities necessary in connection with furnishing of such service by the utility.

3. Each applicant for service may be required to deposit with the utility, before service will be furnished, a sum of money in amount equal to the estimated amount of the utility's bill for such service, or to otherwise secure in a manner satisfactory to the company, the payment of any bills which may accrue by reason of such service so furnished or supplied.

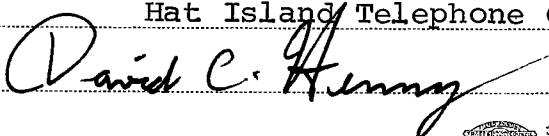

B. Speculative Projects

1. The provisions of this rule relative to speculative projects are intended to afford protection to the utility against loss in revenue from service furnished to subscribers engaged in projects of an unusually financially hazardous nature. Such projects include those involving oil wells, mining operations, stock or other promotion schemes, club membership or other drives, sales or election campaigns, resorts, and others of similar nature. The provisions of this rule are also intended to afford protection to the utility against loss from either residence or business services, which circumstances indicate to have more than usual liability of loss. The location where the service is to be furnished, the utility's knowledge of a particular customer's activities, the information furnished by the customer, may all be considered in determining whether an account should be classified as speculative.

RULES AND REGULATIONS**ORIGINAL**12. Temporary Service or Speculative Projects (Continued)B. Speculative Projects (Continued)

2. Each applicant for service may be required to pay to the utility in advance or otherwise, as the utility may elect, the net cost of installing and removing any facilities necessary in connection with furnishing of such service by the utility.

3. Each applicant for service may be required to deposit with the utility, before service will be furnished, a sum of money which the utility considers necessary to obtain adequate protection from loss of revenue, or to otherwise secure, in a manner satisfactory to the utility, the payment of any bills which may accrue by reason of such service so furnished or supplied.

C. Nothing in this Rule and Regulation shall be construed as limiting, or in any way affecting the right of the utility to collect from the subscriber any other or additional sum of money which may become due and payable to the utility from the subscriber by reason of the service furnished or to be furnished hereunder.

D. The provisions of this Rule apply not only to new services but also to services which during the life of the service are found to be or have become, since service was applied for, of a temporary or speculative nature even though at the time of application the provisions of this rule were not applied.

13. Miscellaneous

a. Exchange calls originating at party line stations shall be limited to a maximum period five minutes.

b. The utility reserves the right to change the number of a subscriber's telephone service at any time, as the requirements of the service demand.

14. Illegal Use of Service

The utility shall refuse to establish service for any applicant, and it shall discontinue and disconnect service to a subscriber, whenever it has reasonable cause to believe that

the use made or to be made of the service, or the furnishing of service to the premises of the applicant or subscriber, is prohibited under any law, ordinance, regulation, or other legal requirement, or is being or is to be used as an instrumentality, directly or indirectly, to violate or to aid and abet the violation of the law. A written notice to the utility from any official charged with the enforcement of the law stating that such service is being used or will be used as an instrumentality to violate or to aid and abet the violation of the law is sufficient to constitute such reasonable cause.

15. Telephone Directories and Directory Listings

(a) Ownership and Use:

Telephone directories containing the listing of the subscribers within a specified area, which are exclusively issued by the utility, are and remain the property of the utility. They shall not be mutilated and shall be surrendered on request of the utility. No binder, holder, insert, auxiliary cover, apparatus, device or attachment of any kind not furnished or authorized by the utility shall be attached to or used with the directories owned by the utility.

(b) Listings:

The utility shall have no liability for errors or omissions in listings of its subscribers (or other customers) in its telephone directories or in its information records, except (i) as may be required by WAC 480-120-252 and (ii) in accordance with the following:

(1) Listing furnished without additional charge:

In an amount not in excess of the charge for exchange service (excluding additional message charges and charges for optional features and services) for the period during which the error or omission continues; provided, however, that the utility shall have no liability with respect to any error in its published directory for any period prior to the date on which the utility first receives written notice of the error from the subscriber.

(2) Listing furnished at additional charge:

In an amount not in excess of the charge for that listing for the period during which the error or omission continues; provided, however, that the utility shall have no liability with respect to any error in its published directory prior to the date on which the utility first receives written notice of the error from the subscriber.

RULES AND REGULATIONS15. Telephone Directories and Directory Listings (Continued)

The subscriber assumes full responsibility concerning the right to use any name as a directory listing and agrees to hold the utility free and harmless of and from any claims, loss, damage or liability which may result from the use of such listing. The utility does not undertake to determine the legal, contractual or other right to the use of a name to be listed in a telephone directory of the utility.

The utility reserves the right to make such changes in directory listings as may be necessary to bring them into conformity with its standard form.

(c) Subscriber List Information and Directory Assistance Information:

The utility may furnish to other telecommunications service providers and/or directory publishers, Subscriber List Information, as defined in WAC 480-120-201 and/or 47 C.F.R. § 64.2305, and information utilized by the utility in the provision of directory assistance ("Directory Assistance List Information"). Except as the utility may otherwise agree in writing, the utility shall have no liability with respect to any errors or omissions in such Subscriber Listing Information and/or Directory Assistance List Information. In no event and under no circumstances shall the utility have any liability for any act, error or omission of any such other telecommunications service provider or directory publisher.

16. Recorded Public Announcements

For purposes of identification, subscribers to telephone service who transmit or permit the transmission of recorded public announcements over facilities provided by the utility must include in the recorded message the name of the organization or individual responsible for the service and the address at which the service is provided.

Customers transmitting factual public announcements such as stock market quotations, airline schedules and similar information are excluded from the application of the above.

Failure to comply with the above shall be cause for termination of the service.

## RULES AND REGULATIONS

17. Company Liability

- (1) Except as provided in Rule and Regulation 8. of these Rules and Regulations, the Company shall not be liable for mistakes, omissions, interruptions, delays, or errors, or defects in transmission, occurring in the course of furnishing any facility or service or transmitting, receiving or delivering any message.
- (2) When the facilities or services of one or more other companies are used in establishing connections, the Company is not liable for any act or omission of the other company or companies.
- (3) The Company is not liable for any damage not reasonably avoidable to the customer's premises resulting from the attachment of the Company's equipment and associated wiring on such premises, or from the installation or removal thereof.
- (4) The Company is not liable for any accident, injury or death occasioned by its equipment or facilities; provided, however, that to the extent required by law or judicial precedent, this paragraph (4) shall not be construed to limit the Company's liability, if any, for its negligence.
- (5) The Company is not liable for any of the following, and the customer indemnifies and saves harmless the Company from and against the following:
  - (a) Claims for libel, slander or infringement of copyright arising from the material transmitted or recorded over its facilities;
  - (b) Claims for infringement of patents arising from combining with or using in connection with facilities or services of the Company, apparatus, systems, wiring or services not furnished by the Company;

17. Company Liability (Continued)

## (5) (Continued)

- (c) Claims arising from attachment to the Company's facilities of apparatus, systems or wiring of apparatus, systems or wiring not furnished by the Company; and
  - (d) All other claims arising out of any act or omission of the customer in connection with the facilities or services provided by the Company.
- (6) The Company will use its best efforts, unless commercially impracticable, to cure any material failure to provide service caused solely by year 2000 defects in the Company's facilities, software or systems.
- (7) Except as provided in Section (6) of this Rule and Regulation 17., the Company shall not be liable for any damages arising from any failure or impairment of the Company's facilities or services resulting from year 2000 defects in the Company's facilities, software or systems. Due to the interdependence among telecommunications providers and the interrelationship of Company processes, equipment and systems with non-Company processes, equipment and systems, the Company is not responsible for failures caused by circumstances beyond its reasonable control, including, but not limited to, failures caused by: (i) the customer; (ii) other telecommunications providers; (iii) customer premises equipment; or (iv) providers of electrical power. In addition, the Company does not ensure compatibility between Company and non-Company facilities and services used by the customer.

RULES AND REGULATIONS

(N)

18. Late Payment Charge

A Late Payment Charge of one percent (1%) applies to all amounts previously billed on a Subscriber's bill and remaining unpaid at the time of the next month's bill except as provided for in WAC 480-120-172 as applicable.

The Late Payment Charge will be uniformly applied to all exchange Subscribers.

The Late Payment Charge will not be applied for those amounts due, or past due, on Subscribers' bills which are from Interexchange Carriers, other bona fide telecommunications carriers or Internet Service Providers for which the Company does not have an arrangement for Billing and Collection.

The Company will waive Late Payment Charge(s) for Subscribers who establish a preferred payment date, and whose payment is made by the scheduled date. If payment is not made by the scheduled date, Late Payment Charge(s) shall apply.

When the Subscriber contacts the Company to question certain charges made to the Subscriber's billing and the Subscriber and the Company work together to resolve the concern, if the Company agrees to credit the Subscriber's account, the Company will also credit the Subscriber's account for any Late Payment Charge(s) associated with the credited amount.

When a complaint involving disputed charges is referred to the Commission for resolution, the Company will waive the Late Payment Charge(s) associated with the disputed amount for the period of time the complaint is open with the Commission, provided that charges not in dispute are paid when due. In cases where disputes are resolved in favor of the Company, the Late Payment Charge will be applied or reinstated during the period of waiver, if any.

**NUMBER RESERVATION SERVICE****APPLICABILITY**

Applicable to reservation of specific telephone numbers designated by the Company for service to prospective subscribers.

**RATES AND CHARGES**

	<u>Charge to</u> <u>Establish</u>	<u>Rate per</u> <u>Month</u>
Reservation of each telephone number	\$7.50 #	\$2.00

**CONDITIONS:**

1. Number Reservation Service is provided to reserve exchange telephone number(s) on a month-to-month basis.
2. When the subscriber applies for Number Reservation Service, he shall specify the period of the reservation, and all Non-Recurring Charges and monthly rates for that period are to be paid at the time application is made.
3. The subscriber may request that the reservation period be extended beyond that he specified before the reservation became effective. The request for such an extension of the reservation period shall be treated as a new application for this service and all Non-Recurring Charges and monthly rates for the period of the extension are to be paid at the time the request for the extension is made.

# In addition to applicable charges from Schedule 13.

SCHEDULE 6INTEREXCHANGE RECEIVING SERVICE

This service is available to subscribers to business individual line service (except coin box service), business private branch exchange service, or order receiving equipment service located in the receiving exchange. It consists of toll service from this exchange to the subscriber's station location in the receiving exchange.

RATE

1. The monthly flat rate for each service established in this exchange shall be \$4.00.

2. For each interexchange message originated under this schedule, the toll station rates shall apply.

CONDITIONS

1. A subscriber to this service will be billed for all interexchange messages to him from this exchange.

2. A telephone number designation will be assigned to each service subscribed for, and will be listed in the telephone directory of this exchange.

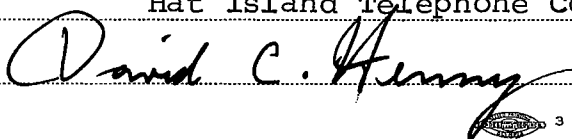

3. No service connection charges apply to this service.

4. Interexchange receiving service will not be given in connection with foreign exchange service.

SCHEDULE 7

LIFELINE SERVICE ASSISTANCE PROGRAMS

(T)

Certain subscribers may be eligible for the Lifeline service offering ("Lifeline service") under Subpart E of Part 54 of Title 47, Code of Federal Regulations ("CFR"). Within the service areas for which the Company is designated as an "eligible telecommunications carrier" pursuant to Subpart C of Part 54 of Title 47 CFR, the Company offers Lifeline service to qualifying low-income consumers.

Lifeline is a government assistance program in which only eligible consumers may enroll, and that is limited to one discount per household. Lifeline service, which is supported by the Lifeline program, is a non-transferrable retail local service offering that is available only to qualifying low-income consumers, is limited to one discount per household, and for which qualifying low-income consumers pay charges that have been reduced in accordance with Subpart E of Part 54 of Title 47 CFR. In addition, for an "eligible resident of Tribal lands," as defined in § 54.400 of Subpart E of Part 54 of Title 47 CFR, the Company's Lifeline service charges are further reduced in accordance with Subpart E of Part 54 of Title 47 CFR.

The Company's offering of Lifeline service includes "toll limitation" only in the form of "toll blocking" (and not "toll control"), as those terms are defined in Subpart E of Part 54 of Title 47 CFR. "Toll blocking" is available with respect to Company-provided Lifeline service at no Company charge to the Company's subscriber to such Lifeline service.

SCHEDULE 7 (Continued)

LIFELINE SERVICE ASSISTANCE PROGRAMS (Continued)

(T)

On the issue date of this tariff sheet, “toll blocking” is defined in § 54.400 of Subpart E of Part 54 of Title 47 CFR, as “a service provided by an eligible telecommunications carrier that lets subscribers elect not to allow the completion of outgoing toll calls from their telecommunications channel.” “Toll blocking” does not necessarily result in the blocking of collect calls to the subscriber’s telephone line or the blocking of calls billed from another location to the subscriber’s telephone line.

If the service areas for which the Company is designated as an “eligible telecommunications carrier” pursuant to Subpart C of Part 54 of Title 47 CFR include any “Tribal lands,” as that term is used in § 54.413 of Subpart E of Part 54 of Title 47 CFR, then, with respect to such “Tribal lands,” the Company also offers “Tribal Link Up,” as defined in § 54.413 of Subpart E of Part 54 of Title 47 CFR to each “eligible resident of Tribal lands,” as defined in § 54.400 of Subpart E of Part 54 of Title 47 CFR. Tribal Link Up provides, under certain circumstances, (i) a reduction of the customary charge for commencing service and (ii) other benefits pertaining to such charge and to interest charges, if any, that may apply thereto, all as specified more fully in Subpart E of Part 54 of Title 47 CFR.

(T)

The availability of the Lifeline assistance programs described in this schedule, or any of them, to any otherwise eligible subscriber or applicant may be subject to such subscriber or applicant granting his or her written consent to disclosure and/or transmission by the Company of certain information pertaining to that subscriber or applicant, including, but not necessarily limited to, his or her name, other subscriber- or applicant-identifying information, the service address to which the relevant assistance program service is being applied for and/or is being furnished, the specific assistance program in which the subscriber or applicant participates or has applied to participate, and the date or dates of such participation or requested participation, all in accordance with Subpart E of Part 54 of Title 47 CFR.

(T)

(T)

Lifeline service offers to qualifying subscribers certain reductions in, or discount applicable to, charges for qualifying service. Such reductions and/or discounts are supported by payments to the Company by the Lifeline program. The Company shall not be required to provide any Lifeline reduction or discount for which corresponding payment in equal amount is not received by the Company from the Lifeline program.

SCHEDULE 13 (continued)

ORIGINAL

NON-RECURRING CHARGESCONDITIONS

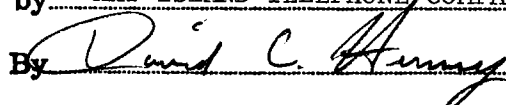

1. When more than one item of work listed under "Charges" in this Schedule is to be performed with respect to the same service line at the same time, the charge for each item of work except the first will be reduced by \$7.50. (N)
2. Except for items for which no installation charge applies, charges for moves and changes shall not exceed the sum of the charges which would apply to new installation of the same service and facility.
3. The charges specified in this Schedule do not contemplate work being performed at a time when overtime wages apply. Where such cases arise as a result of request, action or omission of the subscriber and the Utility elects to perform the work under such circumstances, additional charges based upon the additional costs incurred shall apply. Overtime work shall not be performed without the consent of the subscriber.
4. The charges specified in this Schedule apply only to work requested of the Utility by the subscriber.
5. The Utility may require payment of charges for moves and changes prior to the performance of the work requested by the subscriber. Where advance payment of such charges is not required, failure to pay charges for moves and changes when due may result in discontinuance of service in the same manner and subject to the same conditions as those set forth elsewhere in the Tariff for discontinuance of service resulting from non-payment of monthly bills. LINE EXTENSIONS (NEW)APPLICABILITY

This Schedule applies to requests for extension of residential basic local exchange service within the Company's service area, where the application is completed and the application and all required payments have been received by the Company on or after October 4, 2008. This Schedule does not apply to the following:

- (a) Requests for extension of residential basic local exchange service, where the application is completed and the application and any required payments have been received by the Company prior to October 4, 2008;
- (b) Applications for extension of service for any non-residential service, including, but not limited to, business service;
- (c) Applications for extensions of service for residential classes of service other than new tariffed residential basic local exchange service, unless the Company chooses to treat such application as being subject to this Schedule;
- (d) Applications from developers requesting service for developments; or
- (e) Extension of Company facilities in the exchange area entirely along dedicated rights-of-way.

(N)

LINE EXTENSIONS (NEW)

DEFINITIONS

As used in this Schedule,

(a) the following terms shall have the definitions ascribed to them in WAC 480-120-071(1) and as may be clarified in this Schedule: applicant, cost of service extension, developer, development, distribution plant, drop wire, extension of service, extraordinary cost, order date, premises, tariffed, temporary occupancy, and temporary service;

(b) the term "Commission" means the Washington Utilities and Transportation Commission; and

(c) the term "cost of construction" has the same meaning as the term "cost of service extension," as the latter term is defined in WAC 480-120-071(1) and as the definition of such latter term may be clarified in this Schedule.

A copy of WAC 480-120-071(1) is available upon request

If more than one applicant is involved in a single application for an extension of service or in multiple applications for an extension of service to be constructed over a single construction path, the term "applicant," as used in this Schedule, includes each such applicant, unless the context requires otherwise.

SCHEDULE 14A (Continued)

(N)

LINE EXTENSIONS (NEW)

CHARGES AND CONDITIONS

1. General

The Company will furnish, install and maintain all extensions of service to which this Schedule applies in accordance with the Company's lawful rates, charges, terms and conditions, and with its established construction standards.

2. Type of Construction

The type of construction (*e.g.*, buried or aerial, fiber-optic or metallic cable) used in extensions of service is the prerogative of the Company, except where designated by law. If the applicant requests a different type of construction than that specified by the Company and the Company accommodates the applicant's request, the applicant will be responsible for any additional cost.

3. Construction Route

The route of the extension of service will be determined by the Company. If the applicant requests a different route than that specified by the Company and the Company accommodates the applicant's request, the applicant will be responsible for any additional cost.

LINE EXTENSIONS (NEW)

CHARGES AND CONDITIONS (Continued)

4. Nature of Charges

The charges specified in this Schedule are in addition to all other applicable rates and charges set forth elsewhere in this Tariff or in other tariffs of the Company.

5. Estimated Cost of Construction

An estimate of the cost of construction for a specific extension of service will be provided to the applicant requesting the extension of service. Such estimate of the cost of construction will be in writing and will be valid for thirty (30) days after the Company provides such estimate or a bill for such amount to the applicant.

6. Easements, Rights-of-Way and Permits

Where the requested service location is such that the Company deems it necessary or desirable to use private easements or private and/or governmental rights-of-way, or any combination thereof, to construct the extension of service, the Company may require the applicant to provide, or pay the cost of procuring, such items, including, but not limited to, related permit fees and permit-related costs, in addition to any other applicable charges. The Company's obligation to provide an extension of service is expressly conditioned upon the availability to the Company of all such easements and/or rights-of-way satisfactory to the Company.

be aggregated by the number of applicants; provided however, that multiple applicants that are members of the same household or for whom the requested service will be located on the same premises or parcel will be treated as a single applicant for purposes of calculation of the allowance. For example, if there are two qualifying applicants, the allowance becomes two thousand feet.

Notwithstanding the above-described allowance, if the allowance portion of the extension of service entails extraordinary costs, the Company may petition the Commission for permission to charge the applicant (s) for such extraordinary costs, and upon receipt by the Company of such permission from the Commission, the applicant(s) shall be responsible to reimburse the Company for such extraordinary costs.

If the path of construction is in part along dedicated rights-of-way and in part not along dedicated rights-of-way, the allowance specified above in this 8. applies first to the construction along dedicated rights-of-way and then, if any of the allowance remains unapplied, to the construction not along dedicated rights-of-way. No extension of service charges are applicable in the exchange area to the extension of Company facilities along dedicated rights-of-way.

SCHEDULE 14A (Continued)

(N)

LINE EXTENSIONS (NEW)CHARGES AND CONDITIONS (Continued)9. Application Process

The applicant must complete the application form provided by the Company and submit it to the Company. The application form will be provided to the applicant within seven (7) business days of the applicant's initial request for service. In the case of multiple applicants, each applicant must either submit a separate application form to the Company or be separately identified on and sign a single application form submitted to the Company. Each applicant will be billed an equal portion of the applicable extension of service charges. Multiple applicants may agree to divide the bill among themselves in a ratio different from that billed by the Company so long as the Company receives full payment. In instances where there are no applicable charges for an extension of service, the applicant's request for service will serve as the completed application for extension of service.

SCHEDULE 14A (Continued)

(N)

LINE EXTENSIONS (NEW)CHARGES AND CONDITIONS (Continued)10. Construction Timeline

Under normal circumstances, the Company will construct the extension of service and provide residential basic local exchange service within thirteen months after the order date. Each of the following is an exception:

(a) When an extension of service entails costs of service extension or other charges to be paid by the applicant, the Company will present a bill to the applicant for the estimated cost of construction of the extension of service and associated charges within one hundred twenty days after the date on which the Company receives the application;

(b) When there are extraordinary costs for the allowance portion of the extension of service that the Company is authorized to recover (see 7. above), the Company will present the applicant with a bill for the extraordinary extension of service costs as soon as practicable after receiving permission from the Commission to recover the extraordinary costs;

SCHEDULE 14A (Continued)

(N)

LINE EXTENSIONS (NEW)CHARGES AND CONDITIONS (Continued)10. Construction Timeline (Continued)

(c) If the applicant is a subsequent applicant and required to pay any charges associated with a previous extension of service as provided in Item 14 following, the Company will present the applicant with a bill for the applicant's pro rata share of such prior charges, together with the estimated cost of service extension of any additional extension of service that may be required within one hundred twenty days after the order date; and

(d) If the Company petitions the Commission to recover from the applicant extraordinary costs associated with an extension of service and the Commission denies the Company's petition.

In the case of (a), (b) or (c) immediately preceding, the extension of service will normally be completed and new tariffed residential basic local exchange service provided within twelve months after the applicant returns the completed application to the Company and meets the payment terms established by the Company at the time the bill for the estimated cost of construction, including extraordinary costs if applicable, and other associated charges is presented to the applicant.

In the case of (d) immediately preceding, the period of time to complete the extension of service shall be extended by an amount of time equal to the time that has elapsed from the order date to the date of the Commission's order denying the Company's petition.

(N)

LINE EXTENSIONS (NEW)CHARGES AND CONDITIONS (Continued)10. Construction Timeline (Continued)

In addition to the exceptions set forth under (a), (b), (c) and (d) immediately preceding, completion of the extension of service may be delayed or extended due to delays in obtaining permits related to the extension of service or due to other causes beyond the control of the Company, such as, but not limited to: unavailability of equipment or supplies; civil police or military action, including national emergencies, riots, war, civil insurrections or acts of terrorism; fire, flood or other natural disaster; delays caused by an applicant, including failure to provide access to an applicant's premises; delays caused by local, state, federal or tribal governmental authorities; delays caused by third parties; or negligent or willful misconduct of customers, an applicant or third parties, including, but not limited to outages originating from introduction of a virus onto the Company's network. If such an event occurs, the Company will inform the applicant of the estimated delay in the completion of the extension of service unless prevented from doing so by any of the causes described in this paragraph. The presence of any of the causes described in this paragraph shall also excuse the Company's failure to perform, or delay in performing, any other obligation of the Company set forth in this Schedule.

SCHEDULE 14A (Continued)

(N)

LINE EXTENSIONS (NEW)CHARGES AND CONDITIONS (Continued)11. True-Up of Costs of Extensions of Service

For an extension of service for which the cost of construction is billed to the applicant on an estimated basis, the Company will determine the difference between the estimated cost of construction and the actual cost of construction for the extension of service. If the actual cost of construction for the extension of service is less than the estimated cost of construction for the extension of service billed to and paid by the applicant, the Company will refund any overpayment. In the case of multiple applicants for an extension of service that follows a single path of construction, the refund will be made on a pro rata basis among the appropriate applicants. If the applicants have divided the bill for the estimated cost of the extension of service among themselves in amounts different from the amounts billed by the Company, it shall be the responsibility of the applicants to reconcile any difference in the refund(s). If the cost of construction for the extension of service exceeds the estimated cost of construction that was billed to the applicant, the Company may bill, and the applicant shall pay, the reasonable additional cost of service extension up to ten percent of the estimate. In the case of multiple applicants for a single extension of service, each applicant will be billed an equal portion of the excess amount. Multiple applicants may agree to divide the bill among themselves in a ratio different from that billed by the Company so long as the Company receives full payment.

SCHEDULE 14A (Continued)

(N)

LINE EXTENSIONS (NEW)CHARGES AND CONDITIONS (Continued)11. True-Up of Costs of Extensions of Service (Continued)

In case of a refund or additional charges (as described in the immediately preceding paragraph) for an extension of service under this Schedule, the Company will provide the applicant detailed construction costs showing any difference (whether in excess of the estimated cost of construction or below the estimated cost of construction).

12. Supporting Structures and Trenches

Construction of an extension of service is expressly conditioned upon the applicant completing construction, installation and/or placement of supporting structures, trenches, or both, on the applicant's property as determined by the Company. The applicant's responsibility for the construction, installation and/or placement of supporting structures, trenches, or both, extends from the applicant's property line to the applicant's premises. In the case of multiple applicants for an extension of service, each applicant is responsible for the construction, installation and/or placement of supporting structures, trenches, or both, on such applicant's property from that applicant's property line to that applicant's premises. All such supporting structures must be constructed, installed and/or placed in accordance with Company construction specifications provided to the applicant by the Company. As used in this Schedule, the term "supporting structures" includes, but is not limited to, conduits.

SCHEDULE 14A (Continued)

(N)

LINE EXTENSIONS (NEW)CHARGES AND CONDITIONS (Continued)12. Supporting Structures and Trenches (Continued)

The applicant has the option of providing the trench and supporting structures from the applicant's property line to the applicant's premises as determined by the Company, or may choose the Company, or a different company, for the construction, installation and/or placement of the trench and supporting structures. If the applicant chooses the Company to dig the trench and/or provide the supporting structures, the applicant shall pay the Company all costs associated with the trench and the supporting structures, as applicable. Once supporting structures, trench, or both, have been constructed, installed and/or placed, the Company will provide the drop wire to the applicant at no charge. In instances where drop wire is provided by the Company to the applicant, the applicant shall place the drop wire in accordance with specifications provided to the applicant by the Company.

Once constructed, installed and/or in place in accordance with the Company's specifications, all supporting structures and drop wire from the applicant's property line to the applicant's premises shall be maintained by the Company so long as service is provided by the Company to the applicant at the applicant's premises. If the Company ceases to provide service to the applicant at the applicant's premises, the Company shall have no responsibility for maintenance of supporting structures and drop wire on the applicant's property. All supporting structures and drop wire furnished by the Company shall continue to be owned by the Company unless and until abandoned by the Company in writing.

CHARGES AND CONDITIONS (Continued)

12. Supporting Structures and Trenches (Continued)

In arranging for service under this Schedule, the applicant shall be deemed to have granted the Company and its employees, agents and contractors an easement for, and permission for, ingress and egress to and from the drop wire, supporting structures, trench and protector or NID for purposes of installation, repair, maintenance, operation, augmentation and/or replacement of the said drop wire, supporting structures, trenches and protector or NID and/or for purposes of removal of the said drop wire, supporting structures and/or protector or NID. Such easement and permission shall be in addition to all other easements and permissions that the Company may have with respect to the applicant's property and shall be and remain in effect for so long as the Company provides service to the applicant's premises or has facilities located on the applicant's property.

Any cost incurred because of the sharing of support structure on the applicant's property with another utility shall be the responsibility of the applicant.

SCHEDULE 14A (Continued)

(N)

LINE EXTENSIONS (NEW)CHARGES AND CONDITIONS (Continued)13. Subsequent Applicants to Existing Extensions of Service for Which  
Charges Were Paid Pursuant to this Schedule

If, within five years of the order date for an extension of service, a subsequent applicant seeks service that would be provided by means of a previous extension of service pursuant to this Schedule where the original applicant paid extension of service charges under this Schedule, then the subsequent applicant shall pay to the Company a proportionate share of the original extension of service charges before the Company will provide service to the new applicant from the previous extension of service. However, if a subsequent applicant's service falls within the original allowance established pursuant to 8. above (or if there were multiple original applicants, the original aggregate allowance), then no amount shall be due from the subsequent applicant on account of the previous extension of service.

Any amount received by the Company from a subsequent applicant by reason of an earlier extension of service will be made available for refund by the Company proportionately to the original applicant(s) that paid charges pursuant to this Schedule with respect to that earlier extension of service. The Company will provide notice of the availability of a refund to such applicant(s) by mailing such notice to such applicant(s)' respective last known address(es), as reflected in the records of the Company. The notice will state the amount of the refund available. Such refund will be made only upon request received by the Company within sixty days of the date such notice was sent. Any such refund amount, the request for which is not received by the Company within sixty days of the date such notice was sent, will be refunded to the subsequent applicant.

SCHEDULE 14A (Continued)

(N)

LINE EXTENSIONS (NEW)CHARGES AND CONDITIONS (Continued)13. Subsequent Applicants to Existing Extensions of Service for Which Charges Were Paid Pursuant to this Schedule (Continued)

Where a subsequent application involves an additional extension of service such that the previous extension of service must be extended further in order to provide service to the subsequent applicant, such subsequent application shall be deemed to be an application for a new extension of service and no amount shall be collected from the subsequent applicant and refunded to the previous applicant(s) on account of the previous extension of service.

14. Temporary Service; Service to Premises Having Only Temporary Occupancy

Where an applicant requests temporary service or service to premises having only temporary occupancy, and the requested service requires an extension of service, the allowance set forth in 8. above shall not apply and the applicant will be billed for, and is responsible for paying, the full cost of the extension of service. The order date for such extension of service shall be considered to be the date upon which the applicant for temporary service meets the payment conditions contained in or provided with the bill for the estimated cost of construction. The true-up provisions of 11. above apply to extensions of service for temporary service or extensions of service to serve premises having only temporary occupancy. If an application for temporary service or for service to premises having only temporary occupancy will utilize a previous extension of service constructed pursuant to this Schedule, the applicant for such service shall be considered to be a subsequent applicant and have all of the obligations of a subsequent applicant under 13. above.

SCHEDULE 14A (Continued)

(N)

LINE EXTENSIONS (NEW)CHARGES AND CONDITIONS (Continued)15. Additional Information and Notices to Applicants

When the application form for an extension of service is provided to the applicant, the Company will also provide a brief explanation of the extension of service rules. The explanation will include the possibility that the applicant will be required to contribute to the cost of a previously built extension of service that is less than five years old and was constructed pursuant to this Schedule if such previously built extension of service is involved in providing service to the applicant.

When a bill for extension of service costs is delivered to an applicant for an extension of service, the Company will provide the applicant with a notice of the potential right to be reimbursed for a portion of the cost of the extension of service as described in 13. above and of the duty to keep the Company apprised of the applicant's current address if the applicant wishes to receive future notice of the availability of such reimbursement.

16. Other Limitations on the Company's Obligations

The Company may refuse to process an application for extension of service if the application is not in compliance with Commission rules, the terms and conditions of the Company's tariff, or both. The Company may also refuse to process an application for extension of service if any of the applicants is not in compliance with Commission rules, the terms and conditions of the Company's applicable tariff, or both. In addition, the Company may refrain from processing an application for extension of service or proceeding with the extension of service if the Company determines that it is going to refuse service in accordance with WAC 480-120-061.

CONCURRENCES

INTRASTATE ACCESS SERVICE :

Subject to the exceptions set forth below in this Schedule, the Company concurs in Tariff WN U-2 ("Access Service") of the Washington Exchange Carrier Association ("WECA Tariff WN U-2") as filed with the Washington Utilities and Transportation Commission, together with amendments thereto and successive issues thereof, for the purpose of providing intrastate access service. All references in this concurrence to CONTEL Tariff WN U-6 are intended to refer to WECA Tariff WN U-2 and the term "WECA Tariff WN U-2" is hereby substituted for the term "CONTEL Tariff WN U-6" wherever the latter term appears hereinafter.

(C)  
(C)  
(N)  
|  
(N)

EXCEPTIONS:

1. The terms "Washington Exchange Carrier Association," "Continental Telephone Company of the Northwest, Inc.," "Telephone Company" and "Company" shall mean Hat Island Telephone Company.
2. All offerings of service made by this concurrence are subject to the Company's ability to provide the service with existing facilities, or with such additional facilities as the Company may elect to provide.
3. Reference in WECA Tariff WN U-2 to Section 6 with regard to Switched Access Service shall be deemed to refer to Section 5 of said tariff, unless the context otherwise requires.

CONCURRENCES

INTRASTATE ACCESS SERVICE (continued):

EXCEPTIONS (Continued):

6. Each reference in the following sections of CONTEL Tariff WN U-6 to "Interim 800 Translation" shall be deemed to read "Interim NXX Translation": 4.2.8(f); 5.7.1(C)(2).

7. Each reference in the following sections of CONTEL Tariff WN U-6 to "Interim 800 NXX codes" or "Interim 800 NXX code(s)" shall be deemed to read "Interim NXX code(s)": 4.2.8(A)(f).

8. Section 4.2 of CONTEL Tariff WN U-6 shall be deemed modified to read as follows:

"4.2 Access Order

An Access Order is used by the Telephone Company to provide a customer Access Service as follows:

- Switched Access Services as set forth in 5. following,
- Special Access Services as set forth in 6. following, and
- Other Services as set forth in 4.1.2 preceding.

When placing an order for Access Service, the customer shall provide, at a minimum, the following information:

- For Feature Group A Switched Access Service, the customer shall specify the number of lines and the first point of switching (i.e., dial tone office), the Local Transport options and Local Switching options desired. In addition, the customer shall specify whether the off-hook supervisory signalling is provided by the customer's equipment before the called party answers, or is forwarded by the customer's equipment when the called party answers. The customer shall also specify which lines are to be arranged in multiline hunt group arrangements and which lines are to be provided as single lines.

CONCURRENCES

INTRASTATE ACCESS SERVICE (continued):

EXCEPTIONS (Continued):

- For Feature Group B Switched Access Service, the customer shall specify the number of trunks and the end office when direct routing to the end office is desired or the access tandem switch when routing is desired via an access tandem switch and Local Transport options and Local Switching options desired. The customer shall also specify for terminating only access minutes, whether the trunks are to be arranged in trunk group arrangements or provided as single trunks.
- For Feature Group C and D Switched Access Service, the customer shall specify the number of busy hour minutes of capacity (BHMC) from the customer designated premises to the end office by Feature Group and by type of BHMC. This information is used to determine the number of transmission paths as set forth in 5.5.5 following. The customer then specifies the Local Transport, Local Switching and Interim NXX Translation options.
- Additionally, when Feature Group C or D Switched Access Service is ordered with the Interim NXX Translation optional feature, the customer shall specify the Service Access Code(s) (e.g., 900) and their associated NXX code(s) to be translated within the entire LATA or Market Area. The initial and subsequent orders to add, change, or delete Interim NXX Translation codes shall be placed separately or in combination with orders to change Feature Group C or D Switched Access BHMC or trunks. Customer assigned NXX codes which have not been ordered will be blocked.

SCHEDULE 21A (Continued)

(N)

CONCURRENCESINTRASTATE ACCESS SERVICE (continued):EXCEPTIONS (Continued):

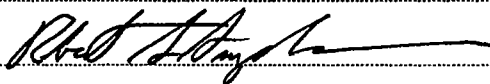

- Orders for the Interim NXX Translation optional feature shall not be required until such time as a customer other than an MTS/WATS provider requests Interim NXX Translation of Service Access Codes. Upon receipt of such order, the Telephone Company shall notify the MTS/WATS provider(s) of the activation of the Interim NXX Translation Service for the Service Access Code. Following such initial activation, all customers are required to place orders for Interim NXX Translation of the Service Access Code and the Interim NXX Translation charge for the Service Access Code shall apply as set forth in 5.8.3 following.
- Customers other than an MTS/WATS provider may, at their option, order FGD by specifying the number of trunks desired between customer designated premises and an entry switch. When ordering by trunk quantities rather than BHMC quantities to an access tandem, the customer must also provide the Telephone Company an estimated of the amount of traffic it will generate to and/or from each end office subtending the access tandem to assist the Telephone Company in its own efforts to project further facility requirements.

SCHEDULE 21A (Continued)

(N)

CONCURRENCESINTRASTATE ACCESS SERVICE (continued):EXCEPTIONS (Continued):

- Special Access Service may be ordered for connection with FGC or FGD Switched Access Service at Telephone Company designated WATS Serving Offices (WSOs) for the provision of WATS or WATS-type Services and may be ordered separately by a customer other than the customer which orders the FGC or FGD Switched Access Service. For the Special Access Service the customer shall specify the customer designated premises at which the Special Access Service terminates, the type of line (i.e., originating, terminating, or two-way) and the type of Supervisory Signaling. When the optional screening, switching and/or recording functions are not provided at the customer serving wire center, Channel Mileage, as set forth in 6.2.1 following, must be ordered between that wire center and the nearest WSO where the screening, switching and/or recording functions can be provided.
- For all Special Access Services, the customer must specify the customer designated premises or hubs involved, the type of service (e.g., Voice Grade, High Capacity), the channel interface, technical specification package and options desired. For multipoint services, the channel interface at each customer designated premises may, at the request of the customer, be different but all such interfaces shall be compatible.

SCHEDULE 21A (Continued)

(N)

CONCURRENCESINTRASTATE ACCESS SERVICE (continued):EXCEPTIONS (Continued):

- The BHMC may be determined by the customer in the following manner. For each day (8 a.m. to 11 p.m., Monday through Friday, excluding national holidays), the customer shall determine the highest number of minutes of use for a single hour (e.g., 55 minutes in the 10-11 a.m. hour). The customer shall, for the same hour period (i.e., busy hour) for each of twenty consecutive business days, pick the twenty consecutive business days in a calendar year which add up to the largest number of minutes of use. Both originating and terminating minutes shall be included. The customer shall then determine the average busy hour minutes of capacity (i.e., BHMC) by dividing the largest number of minutes of use figure for the same hour period for the consecutive twenty business day period by 20. This computation shall be performed for each end office the customer wishes to serve. These determinations thus establish forecasted BHMC for each end office."

9. 800 Data Base Access Service

(a) The following new definitions are added to Section 2.6 of CONTEL Tariff WN U-6:

"800 Service Management System

The term "800 Service Management System" (800 SMS) denotes the main operations support system used to create and update 800 service records in the national 800 data base.

800 Service Provider

The term "800 Service Provider" denotes a telecommunications company, including Exchange and Interexchange Carriers, that offers 800 Service to subscribers.

Query

The term "Query" denotes a request for specific information generated by a computer processor and sent to a data base, with a predefined set of responses expected.

Response

The term "Response" denotes one response from a set of predefined expected responses to a request for information contained in a query from a computer processor.

(f) The first paragraph of Section 5.1.2(C)(1) of CONTEL Tariff WN U-6 is modified to read as follows:

"(1) Interim NXX Translation

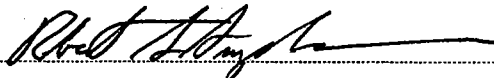

The Interim NXX Translation rate elements provide for customer identification of non-data base calls dialed by end users in the 1+SAC+NXX-XXXX or 0+SAC+NXX-XXXX (e.g., 1+900+NXX+XXXX) format. The NXX codes are assigned to specific customers in conformance with the North American Numbering Plan (NANP). NXX code assignment(s) will be made by the Bellcore NANP Coordinator, or such other authority as the Federal Communications Commission may designate for such purpose. The Telephone Company will use the NXX code to identify the customer to whose point of termination the traffic is to be delivered (i.e., at appropriately equipped electronic end offices, access tandems or through contracted arrangements with other parties). It is then the responsibility of the customer to do any further translation the customer deems necessary and route the call. Customer assigned NXX codes which have not been ordered will be blocked. When a 0+SAC-NXX-XXXX call is originated by an end user, the initial operator service function will be performed by the Telephone Company prior to delivery of the call to the customer."

(N)

CONCURRENCES

INTRASTATE ACCESS SERVICE (continued):

EXCEPTIONS (Continued):

(g) The following new Section 5.1.2(C)(2) is added to Section 5.1.2(C) of CONTEL Tariff WN U-6:

"(2) 800 Data Base Access Service

800 Data Base Access Service is provided to all customers in conjunction with FGC and FGD switched access service. When a 1+800+XXX+XXXX or a 0+800+XXX-XXXX call is originated by an end user, the Telephone Company will utilize the Signaling System 7 (SS7) network to query an 800 data base to identify the customer to whom the call is to be delivered and provide vertical features based on the dialed ten digits. If other necessary facilities and/or services (e.g., trunks to the Telephone Company-designated Service Switching Point (SSP) initiating the query) have been ordered and installed, the call will then be routed to the identified customer over FGC or FGD switched access service; provided, however, that when a 0+800+XXX-XXXX call is originated by an end user, the initial operator service function will be performed by the Telephone Company prior to delivery of the call to the customer.

A Basic or Vertical Feature Query charge, as set forth in 5.8.1(E)(1) following, is assessed for each query launched to the data base which identifies the customer to whom the call is to be delivered. The Basic Query provides the identification of the customer to whom the call is to be delivered and includes area of service routing which allows routing of 800 calls by telephone companies to different interexchange carriers based on the Local Access Transport Area (LATA) in which the call originates. The Vertical Feature Query provides the same customer identification as the basic query and vertical features which may include: (1) call validation (ensuring that calls originate from subscribed service

SCHEDULE 21A (Continued)

(N)

CONCURRENCES

INTRASTATE ACCESS SERVICE (continued):

EXCEPTIONS (Continued):

(i) Section 5.3.3(A) of CONTEL Tariff WN U-6 shall be deemed modified to read as follows:

"(A) Interim NXX Translation

Interim NXX Translation optional feature is an originating offering utilizing trunk side Switched Access Service. The service provides a customer identification function based on the dialed non-data base SAC-NXX number (e.g., 900-NXX number).

When a 1+SAC+NXX-XXXX or a 0+SAC+NXX-XXXX non-data base call is originated by an end user, the Telephone Company will perform the customer identification function based on the dialed digits to determine the customer location to which the call is to be routed. If the call originates from an end office switch not equipped to provide the customer identification function, the call will be routed to an office at which the function is available. Once the customer identification has been established, the call will be routed to the customer; provided, however, that when a 0+SAC+NXX-XXXX call is originated by an end user, the initial operator service function will be performed by the Telephone Company prior to delivery of the call to the customer. Calls originating from an end office switch at which the customer identification function is performed, but to which the customer has not ordered Interim NXX Translation, will be blocked.

The manner in which Interim NXX Translation is provided is dependent on the status of the end office from which the service is provided (i.e., equipped with equal access capabilities or not equipped with equal access capabilities). When Interim NXX Translation is provided from an end office equipped with equal access capabilities, it will be provided in conjunction with FGD Switched Access Service. When Interim NXX Translation is provided from an end office not equipped with equal access capabilities, it will be provided in conjunction with FGC Switched Access Service."

SCHEDULE 21A (Continued)

(N)

CONCURRENCESINTRASTATE ACCESS SERVICE (continued):EXCEPTIONS (Continued):

(j) The following new Section 5.3.3(B) is added to Section 5.3.3 of CONTEL Tariff WN U-6:

"(B) 800 Data Base Access Service

800 Data Base Access Service is provided with FGC and FGD switched access service. When a 1+800+NXX+XXXX or 0+800+NXX-XXXX call is originated by an end user, the Telephone Company will utilize the Signaling System 7 (SS7) network to query an 800 data base to identify the customer to whom the call is to be delivered and provide vertical features based on the dialed ten digits. If other necessary facilities and/or services (e.g., trunks to the Telephone Company-designated Service Switching Point (SSP) initiating the query) have been ordered and installed, the call will then be routed to the identified customer over FGC or FGD switched access service; provided, however, that when a 0+800+NXX-XXXX call is originated by an end user, the initial operator service function will be performed by the Telephone Company prior to delivery of the call to the customer.

A Basic or Vertical Feature Query charge, as set forth in 5.8.1(E)(1) following, is assessed for each query launched to the data base which identifies the customer to whom the call is to be delivered. The Basic Query provides the identification of the customer to whom the call is to be delivered and includes area of service routing which allows routing of 800 calls by telephone companies to different interexchange carriers based on the Local Access Transport Area (LATA) in which the call originates. The Vertical Feature Query provides the same customer identification as the basic query and vertical features which may include: (1) call validation (ensuring that calls originate from subscribed service

areas); (2) POTS translation of 800 numbers; (3) alternate POTS translation (which allows subscribers to vary the routing of 800 calls based on factors such as time of day or place of origin of the call); and (4) multiple carrier routing (which allows subscribers to route to different carriers based on factors similar to those in (3)). When POTS translation of 800 numbers is to be furnished, the 800 Data Base Access Service customer must provide to the 800 SMS the full ten-digit local exchange number (NPA-NXX-XXXX) to be associated with the 800 number. In all cases where 800 Data Base Access Service is to be utilized, the carrier to which the 800 call is to be delivered must be provided by the 800 Data Base Access Service customer to the 800 SMS.

The description and application of this charge with respect to Feature Group C or Feature Group D is as set forth in 5.7.1(D)(7) and 5.7.1(D) following.

The manner in which 800 data base access service is provided is dependent on the availability of SS7 service at the end office from which the service is provided as outlined following:

- When 800 Data Base Access Service originates at an end office equipped with Service Switching Point (SSP) capability for querying centralized data bases, all such service will be provisioned from that end office.

SCHEDULE 21A (Continued)

(N)

CONCURRENCESINTRASTATE ACCESS SERVICE (continued):EXCEPTIONS (Continued):

These ratios will be developed by dividing the unidentified originating 800 minutes of use and/or queries at an end office by the total unidentified originating minutes of use and/or queries in all end offices subtending the tandem or SSP. For example, assume:

- Three end offices (EO-1, EO-2 and EO-3) subtend a tandem

EO-1 measures 2,000 minutes of 800 use	
EO-2 measures 3,000 minutes of 800 use	
EO-3 measures <u>5,000</u> minutes of 800 use	
10,000	TOTAL

- The tandem delivers 800 usage to two customers:

IC-A has 4,000 minutes of use  
IC-B has 6,000 minutes of use

- The allocation ratio for EO-1 is 20%

2,000/10,000

- The minutes of use to be billed by EO-1 are

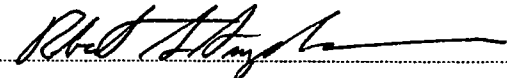

800 to IC-A (20% x 4,000)	
<u>1,200</u> to IC-B (20% x 6,000)	
2,000	TOTAL"

10. Section 11.3.3 of CONTEL Tariff WN U-6 shall be deemed modified to read as follows:

"11.3.3 Presubscription

"(A) InterLATA Presubscription

- (1) InterLATA Presubscription is an arrangement whereby an end user subscriber to Telephone Exchange Service may select and designate to the Telephone Company an interexchange carrier (IC) to access, without an access code, for intrastate interLATA toll calls. This IC is referred to as the end user's interLATA predesignated Interexchange Carrier (PIC). To the extent, if any, that the Company offers interLATA toll service, the end user may select the Telephone Company as the end user's interLATA PIC, or the end user may select as its interLATA PIC any other IC that has identified to the Telephone Company that it will accept such selection and that orders and obtains originating Feature Group D (FGD) Switched Access Service at the end office that serves the end user. Except as provided below, for any change in interLATA PIC selection, a nonrecurring charge, as set forth in 11.3.3(J) following, applies.

ORIGINAL

**CUSTOM CALLING SERVICES**

(T)

**APPLICABILITY**

Applicable to Company provided business and residence exchange access lines (excluding Public Access Line Service) in the Company's exchange.

(C)  
(C)

**DESCRIPTION**

Custom Calling Services are a group of central office features that use existing Subscriber lines to provide end users with call management capabilities. These features are intended for both residence and business Subscribers. As offered initially by the Company, Custom Calling Services may be limited to the Subscriber's local exchange area only.

ORIGINAL

**SCHEDULE 23**

**CUSTOM CALLING SERVICES**

**DESCRIPTIONS**

Account Coding

This feature allows a user to add an account code to a message record for Subscriber allocation of telecommunications charges.

Call Forwarding

*Busy* – permits call attempts that terminate to the busy line to be redirected to another Subscriber-specified line.

*Don't Answer* – forwards calls to a pre-selected line, or to an attendant, when the called line is not answered after a Subscriber-specified number of seconds.

*Scheduled* – permits the subscriber to change the termination of their incoming calls and base the termination upon a time schedule.

*Variable* – allows a user to redirect all calls to that number to another telephone line.

These Call Forwarding features may be activated or deactivated locally or remotely by dialling a code from a touch-tone (DTMF) telephone.

Call Hold

This feature allows a user to place a call in progress on "hold" and originate another call, answer a waiting call, or move to another telephone on the same line and pick-up the held call. A held call cannot be added to another call.

Call Pickup

This feature allows a station to answer any call within an associated preset pickup group.

## SCHEDULE 23

### CUSTOM CALLING SERVICES

(T)

#### *DESCRIPTIONS (Continued)*

##### Call Trace

(N)

This service is universally available and allows the called party to request an automatic trace of the last incoming call.

Call Trace performs the function of recording call information, but in no way identifies the person(s) actually placing the call(s).

Immediately after receiving the call that is to be traced, the called party dials a code and the traced telephone number is automatically sent to the Company for action. The trace information includes the telephone number of the calling line along with the time and date of the call.

The results of the trace will not be provided directly to the called party or the Subscriber, but will be retained by the Company for release to an authorized agency, such as a law enforcement agency.

To be traced, interswitch calls (calls from outside the local calling area) must arrive at the Company's switch over circuits that support Signaling System 7 (SS7) end-to-end.

The Company shall not be liable for damages due to its inability to trace the call(s) or due to disclosure or non-disclosure of the trace information to governmental agencies.

Call Trace is available on a flat or usage basis. Usage will be capped at twice the monthly charge for those who have not pre-subscribed to this service.

##### Call Transfer Service

This service allows a Subscriber of Exchange Service to transfer any established call to another telephone access line by redirecting the call in progress back through the Company's switch and out again to the other telephone access line. Call Transfer Service also may be used to accomplish Three-Way Calling.

##### Call Waiting

This feature allows a station user who is engaged in a telephone conversation to be alerted via an audible tone that an incoming call is attempting to terminate.

**CUSTOM CALLING SERVICES**

(T)

**DESCRIPTIONS (Continued)****Calling Number Delivery Service**

(N)

Calling Number Delivery Service provides for the automatic delivery of a calling party's telephone number, when available, including non-published and non-listed telephone numbers, to the called party unless the caller subscribes to or activates per-line or per-call blocking of Calling Number Delivery Service. The telephone number is displayed on equipment provided by the Subscriber.

**Calling Number Delivery Service Blocking**

Calling Number Delivery Service Blocking per call is universally available and provides free per-call blocking where callers may prevent the delivery of their telephone number to the called party. This is accomplished on a per call basis when the caller dials the activation code prior to placing the call.

Calling Number Delivery Service Blocking per line provides free per-line blocking where callers may prevent the delivery of their telephone number to the called party. This feature may be deactivated thus forwarding the calling telephone number on a per call basis by dialing the deactivation code prior to placing the call.

**Computer Access Restriction**

Allows a Subscriber to create a screening list of telephone numbers and to accept (via a modem and computer or computer terminal attached to the Subscriber's telephone set) voice versions of data calls only from calling parties (with modems and computers or computer terminals attached to analog telephone sets) whose telephone numbers are on the screening list.

**Continuous Redial**

This service is universally available and allows a caller to dial a code that will cause the feature to automatically redial the last number the caller dialed. If the called number is busy, the feature will redial the called number for a limited period of time. A distinctive ring alerts the Caller when the called number becomes available.

Continuous Redial is available on a flat or usage basis. Usage will be capped at twice the monthly rate for those who have not pre-subscribed to this service. Subscribers of Exchange Service may request the removal of this service at any time at no charge.

---

**SCHEDULE 23****CUSTOM CALLING SERVICES***DESCRIPTIONS (Continued)**Last Call Return*

This service is universally available and allows an Exchange Service Subscriber to dial a code that will cause the feature to automatically redial the number of the last incoming call to that line, whether the call was answered or not. The called party does not have to know the number of the calling party. If the calling party's number is blocked, by the calling party, the service will not return the call. If the called number is busy, the feature will redial the called number for a limited period of time. A tone alerts the caller when the called line is available.

Last Call return is available on a flat or usage basis. Usage will be capped at twice the monthly charge for those who have not pre-subscribed to this service. Subscribers of Exchange Service may request the removal of this service at any time at no charge.

*Message Waiting Indication*

This feature notifies the user of a message waiting by providing either an audible stutter dial tone or visually by illuminating a light on the user's compatible Customer premises Equipment.

*Remote Access Forwarding*

A function which allows all incoming calls to be forwarded to another telephone number. It allows the Subscriber to remotely change the termination of their incoming calls. From any tone signaling telephone, the Subscriber can activate, deactivate, or change the destination number.

*Selective Call Rejection*

Enables a Subscriber to reject call attempts from up to fifteen numbers of calling parties by dialing a code and then the telephone numbers of calls to be rejected. Any call attempts to the Subscriber's line from these numbers will be prevented from completing the call to the Subscriber's line and will instead be connected to a recorded announcement informing the caller that the call is not presently being accepted by the called party. A Subscriber may also reject future calls from the most recent call received by dialing a code immediately after completing the call which adds the number to the list of up to fifteen numbers.

### CUSTOM CALLING SERVICES

(T)

#### DESCRIPTIONS (Continued)

(N)

##### Selective Call Acceptance

Allows a Subscriber to select up to fifteen telephone numbers from which calls can be received. All other calls are connected to a recorded announcement informing the caller that the Subscriber is not accepting calls.

##### Selective Call Forwarding

Allows a Subscriber to select up to fifteen telephone numbers for which calls will be automatically forwarded to a predefined telephone number. All other calls will be handled normally.

##### Selective Distinctive Alert

Allows a Subscriber to select up to fifteen telephone numbers for which calls receive distinctive alerting treatment based on the telephone number of the calling party. If the Subscriber's line is idle, a distinctive ringing signal will be heard. If the Subscriber's line is busy, and is also subscribed to Call Waiting, the called line receives a distinctive call waiting tone.

(N)

##### Single-Line Intercom

Allows the Individual Line subscriber having two or more standard telephone stations on a single analog (non-digital) line to use those stations for intercom service.

(M)

(C)

(M)

##### Six-Way Calling

Allows a user to add up to four additional parties (six parties total) to an existing conversation.

(M1)

(M1)

##### Speed Calling

Allows the Subscriber to program up to either eight (8) or thirty (30) one or two digit codes in association with up to eight or thirty full length numbers as they normally would have been dialed.

(N)

(N)

##### Three-Way Calling

Permits a User, while holding an existing call, to call a third number, thereby extending the call to include that number.

(M1)

(M1)

##### Unidentified Call Rejection

Allows the Subscriber to automatically reject calls if the calling party's number is marked "Private." The feature routes these calls directly to a recorded announcement which specifies that the called Subscriber is not accepting calls marked "Private."

## **SCHEDULE 23**

### **CUSTOM CALLING SERVICES**

#### **CONDITIONS**

- Certain services and/or features from this Schedule 23 will not be provided and are not to be used so as to terminate on another line, locally or remotely, which has any form of call forwarding where the combined effect is improper use of the service or feature, which includes (but is not limited to) the avoidance of properly applicable long distance charges or access service charges. If such abuse is brought to the attention of the Subscriber and the Subscriber does not cease such abuse, the Subscriber's service from this Schedule 23 may be subject to termination. (T)
- Each time a Subscriber requests the Company to change the characteristics of an established Custom Calling feature (such as number of rings before Call forwarding – Don't Answer occurs, the number to which calls are to be forwarded, etc.), the appropriate Non-Recurring Charge(s) as set forth in this Schedule 23 and in Schedule 13 of this tariff shall apply. (M)(T)  
(M2)(C)
- Any Custom Calling feature(s) may be discontinued by the Company if used improperly. (M1)
- Certain features of this Schedule 23 require that interswitch calls (calls from outside the local calling area) must arrive at the Company's switch over circuits that support Signaling System 7 (SS7) end-to-end in order to function properly. The Company can not be responsible for the proper functioning of any given feature if this is not the case. (N)
- Services from this Schedule 23 are available only where Company facilities and operating conditions permit.
- The minimum service period for features and/or services from this Schedule 23 is one month. (N)

## SCHEDULE 23

### CUSTOM CALLING SERVICES

(T)

#### CONDITIONS (Continued)

(M)(T)

- Services provided by the Company are for the sole use of the Subscriber and may not in any way be resold to or shared with a third party.

(N)

- Rates and charges for these services are in addition to the rates and charges for the class, type and grade of service furnished by the Company and set forth elsewhere in this tariff.

- Package priced features from this Schedule 23 may not be combined with features from other schedules for package pricing purposes.

(N)

- Some features from this Schedule 23 may be mutually exclusive, either with other features in this Schedule 23 or with other features in other schedules of this tariff, and may not function properly or at all in conjunction with those other features.

(M1)(C)

(M1)(C)

- Calls that are forwarded or transferred outside the local calling area will result in Message Telecommunications Service charges from the called number to the forwarded number and may result in simultaneous Message Telecommunications Service charges.

(N)

- Busy Verification and Interrupt Service will not function on lines equipped with any Call Forwarding features.

## SCHEDULE 23

### CUSTOM CALLING SERVICES

(T)

#### CONDITIONS (Continued)

(N)

- Subscribers of Calling Number Delivery Service ("CNDS") may not, without permission of the calling party, publicize or disclose to third parties telephone number information obtained through use of this service. Failure to comply with this condition may subject the Subscriber to termination of this service pursuant to WAC 480-120-081(2)(e).
- All Subscriber's lines will automatically be provisioned with CNDS Blocking - per call service unless or until the Subscriber orders CNDS Blocking - per line service.
- CNDS Blocking - per line, will be provided without a nonrecurring charge to law enforcement, domestic violence agencies, crisis intervention agencies, and employees and/or volunteers certified by those agencies. CNDS Blocking - per line, will be provided without a nonrecurring charge to all other Subscribers for the initial connection of Exchange Service. However, a nonrecurring charge will apply to all Subscribers, excluding those listed above, for a subsequent connection of the service.

SCHEDULE 24 (Continued)

(N)

PUBLIC ACCESS LINE SERVICE (Continued)

DEFINITIONS:

The following definitions, in addition to those set forth elsewhere in this Tariff, apply to this Schedule:

1. "Additional Features" means any or all of the following:

(a) "Central Office Coin Supervision" means the provision of any or all of the following, depending upon the Company's central office facilities, capabilities and operating conditions: (1) signalling on a Public Access Line indicating to a suitably equipped pay telephone that deposited coin(s) are to be collected or returned to the calling party; (2) signalling on a Public Access Line indicating to a suitably equipped pay telephone that coins are to be deposited (such as for Semi-Postpay operation); (3) signalling on a Public Access Line from which a call originates indicating that the called station has answered; (4) the capability of the central office line equipment to pass signals and/or tones from a Public Access Line to a trunk terminating at a suitably equipped operator service provider, such signals enabling a suitably equipped operator service provider to recognize coin deposits and to indicate to a suitably equipped pay telephone that deposited coins are to be returned or collected; (5) to permit a suitably equipped operator service provider to automatically ring back the originating Public Access Line upon completion of a call.

(b) "Originating Line Screening" means the provision of certain codes that permit an aggregator or operator service provider to identify whether a line from which a call originates is a Public Access Line.

(c) "Billed Number Screening" means the provision of certain codes that permit an aggregator or operator service provider to identify whether a line to which a call is to be billed is subject to certain billing restrictions.

SCHEDULE 24 (Continued)

(N)

PUBLIC ACCESS LINE SERVICE (Continued)DEFINITIONS (continued):

## 1. (continued)

(d) "International Call Blocking" means the blocking by the Company's serving central office of all direct-dialed (011+ or 10XXX 011+) international calls.

(e) "Selective Class of Call Screening" means restriction of calls originating from a Company-provided Public Access Line to local calls and calls dialled by the calling party on a "0+", "0-", "00-", "10XXX0+", "10XXX0-", "1+800+", "1+888+" or "1+950+10XX" basis, where such dialling patterns are available. Where available, Selective Class of Call Screening is a feature implemented by the originating central office that serves the Public Access Line.

2. "Aggregator" means a person or entity that, in the ordinary course of its operations, makes pay telephones available for intrastate or interstate service to the public or to users of its premises.

3. "Central-office implemented telephone" means a coin telephone executing coin acceptance requiring coin service signaling from the central office.

4. "Coin service signaling" means Central Office Coin Supervision.

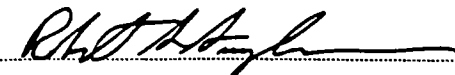

5. "Coin telephone" means a telephone capable of receiving nickels, dimes and quarters to complete telephone calls.

SCHEDULE 24 (Continued)

(N)

PUBLIC ACCESS LINE SERVICE (Continued)DEFINITIONS (continued):

6. "Coinless telephone" means a pay telephone where completion of calls, except free calls, must be billed by an alternative billing method such as credit cards, calling cards, collect, third-party billing, or billed in connection with the billing of meals, goods and/or services. The term "coinless telephone" includes, but is not limited to, charge-a-call, cordless, tabletop and credit card stations, but does not include in-room telephones provided by hotels, motels, hospitals, campuses or similar facilities for the use of guests or residents.
7. "Customer-provided pay telephone" means any pay telephone connected to the Company's network and not furnished and installed by the Company.
8. "Instrument-implemented telephone" means a coin telephone containing all circuitry required to execute coin acceptance and related functions within the instrument itself and not requiring coin service signaling from the central office.
9. "Pay telephone" means any instrument-implemented telephone, central office-implemented telephone, card reader telephone or coinless telephone.
10. "Public Access Line" means an exchange service line furnished by the Company pursuant to this Schedule.
11. "Subscriber" means the party that orders Public Access Line Service from the Company.

SCHEDULE 24 (Continued)

(N)

PUBLIC ACCESS LINE SERVICE (Continued)CONDITIONS:

1. Pay telephones may be connected to the Company's network only by means of a Public Access Line. Public Access Line Service is a business class of service.
2. When ordering Public Access Line Service, the Subscriber must specify the desired Additional Features, if any. Additional Features offered by this Schedule will be furnished only in conjunction with Company-provided Public Access Lines.
3. Public Access Line Service and associated Additional Features are available only where Company equipment, facilities and operating conditions permit.
4. Public Access Line Service does not include any directory listing. If ordered by the Subscriber, one or more directory listings will be provided in accordance with the provisions of this Tariff applicable to additional listings for business class service.
5. Public Access Line Service includes the provision of a dial-tone access line connecting the Company's serving central office with the customer-designated premises. The Company will install a Network Interface Device at a location determined by the Company on or in reasonable proximity to the customer-designated premises. If a Subscriber requests installation of the Network Interface Device in a location other than that determined by the Company, the Company will attempt to accommodate the Subscriber's request if the alternate location is practical, allows the Company unrestricted access to the Network Interface Device at all times and the Subscriber pays the additional costs of installation, if any, in advance. The Network Interface Device will be a Company-selected protector, including an RJ-11 jack or its equivalent or such other jack or its equivalent as the Company may select. All equipment and facilities furnished by the Company up to and including the Company-provided Network Interface Device remain the property of the Company.

SCHEDULE 24 (Continued)

(N)

PUBLIC ACCESS LINE SERVICE (Continued)CONDITIONS (continued):

6. Where the Subscriber is not the owner of the premises on which the Public Access Line Service is to be installed, the Subscriber is responsible, at its sole expense, for obtaining for the Company the legal right, in form and substance satisfactory to the Company, to install its facilities and equipment on the premises. The Subscriber shall indemnify and hold harmless the Company from and against any and all claims (including, but not limited to, reasonable attorneys' fees incurred in connection with any such claim) by the premises owner or any third party arising, in whole or in part, from the Company's installation, maintenance or operation of its facilities on the premises to which Public Access Line Service is furnished pursuant to this Schedule, except claims arising solely from the negligence, gross negligence or willful misconduct of the Company. For purposes of the immediately preceding sentence, none of the following, either singularly or in combination, shall be deemed, construed or adjudged to constitute, or to be attributable to, negligence, gross negligence or wilful misconduct of the Company: (1) the location or placement of any customer-provided pay telephone; (2) the connection by the Company of any of its equipment or facilities to any customer-provided pay telephone; (3) the Company's allowing any customer-provided pay telephone to be connected to any of the Company's equipment or facilities; and/or (4) the offering or provision by the Company of Public Access Line Service at the location of any customer-provided pay telephone.

SCHEDULE 24 (Continued)

(N)

PUBLIC ACCESS LINE SERVICE (Continued)

CONDITIONS (continued):

7. Unless the Subscriber requests otherwise, each Public Access Line furnished pursuant to this Schedule will not be arranged for International Call Blocking. Upon request by the Subscriber, any Public Access Line furnished pursuant to this Schedule will be arranged for International Call Blocking. For a description of International Call Blocking and the terms and conditions that apply thereto, see Tariff F.C.C. No. 5 of the National Exchange Carrier Association, Inc. ("NECA"). In instances in which a Public Access Line is arranged for International Call Blocking at the Subscriber's request, the Subscriber shall indemnify and hold harmless the Company from and against any and all claims (including, but not limited to, reasonable attorneys' fees incurred in connection with any such claim) arising from the inability of any person to originate an international call from the Public Access Line.
8. In instances in which a Public Access Line is arranged for Selective Class of Call Screening, the Subscriber shall indemnify and hold harmless the Company from and against any and all claims (including, but not limited to, reasonable attorneys' fees incurred in connection with any such claim) arising from the inability of any person to originate from the Public Access Line any call that is blocked by such Selective Class of Call Screening.

**HAT ISLAND TELEPHONE COMPANY**

SCHEDULE 24 (Continued)

PUBLIC ACCESS LINE SERVICE (Continued)

CONDITIONS (continued):

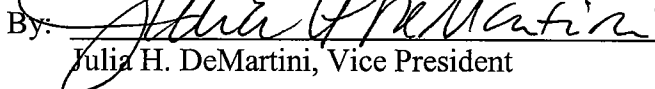

9. Where suitable Company-provided facilities are available and if operating conditions permit, Billed Number Screening and Originating Line Screening, as described in Tariff F.C.C. No. 5 of the National Exchange Carrier Association, Inc., will be provided by the Company in accordance with its customary and usual practices. These features – Billed Number Screening and Originating Line Screening – provide information that permits identification of a Public Access Line as a line to which certain billing restrictions may apply. The Company shall have no financial or other responsibility for whether such information is recognized or not recognized or used or not used by the Subscriber or any third party, or for the use made of such information by the Subscriber or any third party.
10. Except as provided in WAC 480-120-262(9), the Subscriber shall be responsible for payment of all charges and taxes for local service, message toll service, operator assistance, long distance and directory assistance calls, calls to information service providers, other types of chargeable calls, and special tariff charges for calls originating from, or charged to, the Public Access Line to which the Subscriber subscribes. (T)
11. A Directory Assistance charge will apply to each call to Directory Assistance that originates from a Public Access Line. Any "free allowance" permitting a certain number of free calls to Directory Assistance from an exchange service line shall be inapplicable to calls originating from Public Access Lines.
12. The rates and charges set forth in this Schedule are in addition to all other applicable rates and charges, including, but not limited to, those set forth elsewhere in this Tariff and those set forth in Tariff F.C.C. No. 5 of the National Exchange Carrier Association, Inc.

SCHEDULE 24 (Continued)

PUBLIC ACCESS LINE SERVICE (Continued)

CONDITIONS (continued):

13. The Subscriber, and all facilities and equipment furnished by the Subscriber, its agents or subcontractors, shall at all times comply with all Federal, State and local laws, ordinances, rules, regulations and regulatory requirements applicable to the provision of public and semipublic telephone service and/or use of the service furnished by the Company pursuant to this Schedule.
14. The Subscriber is responsible for the installation, operation and maintenance of any customer-provided pay telephone used in connection with Public Access Line Service and for the installation, operation and maintenance of all inside wiring and other telecommunications facilities located between the Company-provided Network Interface Device and the customer-provided pay telephone.
15. The Subscriber is responsible for the provision of booths, shelves and other equipment ancillary to any customer-provided pay telephone connected to a Public Access Line.
16. The Subscriber shall be responsible for any and all loss of, or damage to, Public Access Line facilities furnished by the Company in each of the following instances:
  - (a) Where the loss or damage occurs on any portion or portions of the customer premises where such facilities are installed, regardless of whether such damage is caused by the Subscriber, the location provider or the public; and/or
  - (b) Where the loss or damage has been caused, in whole or in part, by any act(s) and/or omission(s) of the Subscriber and/or the location provider, except where neither any such act nor any such omission occurs, in whole or in part, on or in the immediate vicinity of the premises served by the Public Access Line.

SCHEDULE 24 (Continued)

PUBLIC ACCESS LINE SERVICE (Continued)

CONDITIONS (continued):

17. Minimum charges for Public Access Line Service shall apply when the entire service associated with any Public Access Line is discontinued within one calendar month of the service establishment date. The minimum charge will consist of one month's service and feature rates and the non-recurring charges.
18. Each customer-provided pay telephone must be registered under Part 68 of the rules and regulations of the Federal Communications Commission ("FCC"), or be connected behind a protective coupler registered under Part 68 of the FCC's rules and regulations. The rules, regulations, terms and conditions applicable to the connection of customer-provided equipment to the Company's lines and facilities, as specified elsewhere in this Tariff, apply to such connection of customer-provided pay telephones.
19. Each customer-provided pay telephone must be connected to the Company's network in compliance with the current National Electric Code and National Electric Safety Code.
20. All customer-provided pay telephones must provide coin-free access to dialtone (dial tone first) and allow coin-free access to operators and coin-free emergency 911 access in any exchange in which 911 service is available. Where 911 service is not available, detailed instructions for completing coin-free emergency calls must be posted prominently on or adjacent to each customer-provided pay telephone instrument.
21. All customer-provided pay telephones must provide free access to telecommunications relay service calls for the hearing disabled.
22. Emergency numbers (e.g., operator assistance and 911) must be clearly posted on each customer-provided pay telephone.

SCHEDULE 24 (Continued)

PUBLIC ACCESS LINE SERVICE (Continued)

CONDITIONS (continued):

23. The local coin rate must be stated within the informational placard on each customer-provided pay telephone.
24. Information consisting of the name, address, telephone number of the owner, or the name of the owner and a toll-free telephone number where a caller can obtain assistance in the event the pay telephone malfunctions in any way, and procedures for obtaining a refund from the Subscriber must be displayed on the front of each customer-provided pay telephone.
25. The following information shall be posted on or adjacent to each customer-provided pay telephone:
  - (a) The method by which the consumer may obtain without charge an accurate quotation of rates, fees and surcharges; and
  - (b) The notices required by WAC 480-120-263. (T)

In no case shall the charges to the user exceed the quoted costs.

26. The telephone number of the Public Access Line must be displayed on each customer-provided pay telephone instrument.
27. The Subscriber shall ensure that each pay telephone connected to a Public Access Line is compatible for use with hearing aids and that its installation complies with all applicable federal, state, and local laws and regulations concerning the use of telephones by disabled persons.
28. Each customer-provided pay telephone, if coin operated, must return coins to the caller in the case of an incomplete call and must be capable of receiving nickels, dimes, and quarters.

PUBLIC ACCESS LINE SERVICE (Continued)

CONDITIONS (continued):

29. Except as authorized by law, each customer-provided pay telephone must provide access to all interexchange carriers where such access is available.
30. Except as authorized by law, customer-provided, coin-operated pay telephones must provide two-way service, and there shall be no charge imposed by the Subscriber for incoming calls. All customer-provided pay telephones confined to one-way service shall be clearly marked on the front of the instrument.
31. A maximum of one pay telephone instrument may be connected to any Public Access Line, and a Subscriber must order a separate Public Access Line for each pay telephone installed. Extensions to a customer-provided pay telephone are prohibited, unless such extension was connected in the same location on April 15, 1997.
32. The Subscriber shall inform the Company of the location of each customer-provided pay telephone.
33. Unless otherwise specified in this Schedule, Public Access Line Service will have the same Company-provided repair services available to it as the Company provides to single line business service, subject to the following:
  - (a) The Company shall not be obligated to test or provide other repair services for any Public Access Line with respect to any service difficulty or trouble unless and until the service difficulty or trouble has been reported to the Company by the Subscriber and the Subscriber has requested that testing or other repair services be furnished with respect to that service difficulty or trouble; and

SCHEDULE 24 (Continued)

PUBLIC ACCESS LINE SERVICE (Continued)

CONDITIONS (continued):

33. (continued)

(b) In the event that the Subscriber requests or authorizes that testing and/or other repair services be provided by the Company with respect to any service difficulty or trouble involving a Public Access Line or customer-provided equipment or facilities connected thereto, and the Company reasonably determines that its facilities are not the cause of the service difficulty or trouble, the Subscriber shall reimburse the Company for all costs, including time and materials, incurred by the Company in responding to the request and/or in performing such testing and/or other repair services. Alternatively, in lieu of such reimbursement, the Company may elect to apply, and the Subscriber shall then pay to the Company, the Company's maintenance of service charge(s) specified elsewhere in this Tariff (see Schedule 13).

34. The particular functions available as part of Central Office Coin Supervision are dependent upon the installed capabilities of the Company's serving central office and operating conditions, and such functions will be provided in accordance with the Company's normal operating procedures. The Company shall have no responsibility for the actual collection or return of coins deposited into a customer-owned pay telephone. In the event of a failure or malfunction of the Central Office Coin Supervision feature or any function thereof, the Company's liability shall be limited to refunding to the Subscriber the amount paid by the Subscriber to the Company for the Central Office Coin Supervision feature for the period of time during which the Central Office Coin Supervision feature was impaired.

SCHEDULE 24 (Continued)

PUBLIC ACCESS LINE SERVICE (Continued)

CONDITIONS (continued):

35. The Subscriber shall have sole responsibility for ensuring that each customer-provided pay telephone connected to any Public Access Line furnished by the Company is compatible with the Company's Public Access Line Service and any ordered Additional Features.
36. If the Company maintains one or more specific series of telephone numbers for assignment to Public Access Lines, a telephone number within one of those series, if available, will be assigned to the Public Access Line. All telephone numbers assigned by the Company remain the property of the Company and may not be leased or transferred by the Subscriber to any other person or entity.
37. It shall be the responsibility of the Subscriber to designate the Interexchange Carrier to which a Public Access Line is to be presubscribed for purposes of completing interLATA calls. If and when intraLATA interexchange presubscription becomes available from the Company, it shall also be the responsibility of the Subscriber to designate the Interexchange Carrier to which a Public Access Line is to be presubscribed for purposes of completing intraLATA interexchange calls. Applicable charges specified elsewhere in this Tariff and in Tariff F.C.C. No. 5 of the National Exchange Carrier Association, Inc. shall apply to changes of presubscribed Interexchange Carrier, unless initiated by the Company.
38. The monthly rates for Public Access Lines set forth in this Schedule are for local exchange service only. Optional Extended Area Service, if offered by this Tariff, is not available in conjunction with Public Access Line Service.
39. Public Access Line Service does not include functionalities provided by an operator services provider, such as coin rating, coin refund, repair referral and operator call screening. These functionalities are the responsibility of the Subscriber and the Company shall have no liability with respect thereto.

SCHEDULE 24 (Continued)PUBLIC ACCESS LINE SERVICE (Continued)CONDITIONS (continued):

40. When any customer-provided equipment is used with telecommunications services furnished by the Company in violation of any of the provisions of this Tariff, the Company may take such immediate action as it deems necessary for the protection of the telecommunications network, Company employees, and the public and will promptly give notice thereof to the Subscriber.

Violations of this Tariff or of these conditions, or of any other requirement imposed by law, including, but not limited to, any rule or order of the Washington Utilities and Transportation Commission or rule or order of the Federal Communications Commission, pertaining to Public Access Line Service or pay telephones, will subject the Public Access Line involved to suspension or disconnection of service. If the Company becomes aware of any such violation, the Company may give written notice to the Subscriber of the violation. Within five (5) days after receipt of such notice by the Subscriber, the Subscriber shall discontinue or correct each such violation identified in the said notice, and shall deliver to the Company written confirmation that each such violation has been discontinued or corrected. Failure of the Subscriber to discontinue or correct any violation and to give the required written confirmation thereof to the Company within the time stated above shall result in discontinuance of the Subscriber's service or suspension of the Subscriber's service until such time as the Subscriber complies with the provisions of this Tariff.

41. Neither the Company nor any of its directors, officers, employees or agents shall be liable for civil damages, whether in contract, tort or otherwise, to any person, corporation or other entity, including, but not limited to, the Subscriber, for any loss or damage caused by any act or omission of the Company, its directors, officers, employees and/or agents, in the design, development, installation, testing, maintenance, supervision or other provision of Public Access Line Service other than an act

SCHEDULE 25

CUSTOM RINGING SERVICE

CONDITIONS

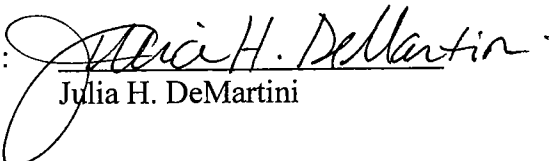

1. Custom Ringing Service allows a Subscriber to Company-provided Exchange Service to have multiple telephone numbers having a distinctive ringing pattern. Any number of telephone numbers may be assigned to a line, but only four distinctive ringing patterns are available.
2. One Directory Listing is available without charge for each telephone number used with Custom Ringing Service. There will be no Company charge for any Non-Listed number associated with Custom Ringing Service.
3. The charge to convert a telephone number which has been used with Custom Ringing Service to a regular exchange access line is the same as the charge to install a new exchange access line, as specified in Schedule 13 of this Tariff.
4. There will be no charge for a Custom Ringing Service-like feature when used to accommodate a number change initiated by the Company. When a Custom Ringing Service-like feature is used for this purpose, the ringing pattern for each telephone number used will be the same.
5. Custom Ringing Service is available only where Company facilities and operating conditions permit.

SCHEDULE 25

CUSTOM RINGING SERVICE

CONDITIONS (Continued)

6. Custom Ringing Service will not be offered to Subscribers with Off Premises Termination Service unless the off premises termination is located on the same discrete premises as the primary Exchange Service.
7. Company intercept service methods and procedures apply to Custom Ringing Service on a per telephone number basis. In addition, the following conditions will apply:
  - When the exchange access line number remains in service, Custom Ringing Service numbers can be individually intercepted.
  - When the exchange access line number is intercepted, all Custom Ringing Service numbers must be intercepted, unless another exchange access line is installed at the same premises, in which case, Custom Ringing Service numbers may either remain in service or be individually intercepted.
8. When the Subscriber's exchange access line is equipped with Call Waiting and the line is busy, for each Custom Ringing Service number, incoming calls will generate a distinctive Call Waiting tone at no additional charge.

SCHEDULE 25

CUSTOM RINGING SERVICE

CONDITIONS (Continued)

9. When the Subscriber's exchange access line is equipped with Call Forwarding, the Subscriber can choose one of the following options:

- A. To have Call Forwarding only on the exchange access line number.
- B. To have all Custom Ringing Service numbers forwarded with the exchange access line number.

This choice is to be made, or changed, at the time the Subscriber places an initial order for Custom Ringing Service. Call Forwarding rates apply only to the exchange access line number. Distinctive ringing will not be heard at the location to which calls are forwarded.

**PROMOTIONS****A. Calling Features Promotion**

1. The Company is offering the Calling Features Promotion described in this Section A in the Hat Island Exchange. Under this Calling Features Promotion, Subscribers to Company-provided Exchange Service pursuant to Schedule 1 of this Tariff may order any or all of the features and/or services listed in A.2. below and receive the feature(s) and/or services so ordered free for the first month said feature(s) and/or services are activated or in service. In addition, the Company will waive any non-recurring charges specified elsewhere in this Tariff that might otherwise apply specifically to the activation of the eligible feature(s) and/or services so ordered.

2. The following features and/or services described more fully elsewhere in this Tariff are eligible for this Calling Features Promotion:

Account Coding	Remote Access Forwarding
Call Forwarding / Busy	Single-Line Intercom
Call Forwarding / Don't Answer	Selective Distinctive Alert
Call Forwarding / Variable	Selective Call Acceptance
Call Hold	Selective Call Rejection
Call Pickup	Selective Call Forwarding
Call Trace	Six-Way Calling
Call Waiting	Speed Calling, eight (8) number capacity
Calling Number Delivery Service	Speed Calling, thirty (30) number capacity
Continuous Redial	Toll Restricted Access
Custom Ringing Service	Three-Way Calling
Last Call Return	Unidentified Call Rejection

(N)

SCHEDULE 27

211 SERVICE

CONDITIONS

1. 211 Service is a three-digit local dialing arrangement available in specified areas for the routing, via voice grade facilities, of calls to providers of community information and referral. Pursuant to Order 00-256, issued by the Federal Communications Commission ("FCC"), in CC Docket No. 92-105, the 211 service code is assigned to be used for access to community information and referral services. As of the date of issue of this tariff sheet, RCW 43.211.010 provides that 211 is created as the official state dialing code for public access to information and referral for health and human services and information about access to services after a natural or nonnatural disaster.
2. Only agencies or entities duly authorized by or pursuant to the laws of the State of Washington to subscribe to and receive 211 Service in the relevant service area may subscribe to 211 Service offered by the Company. As of the date of issue of this tariff sheet, definitions relevant to the determination of what agencies or entities are eligible to subscribe to 211 Service may be found in RCW 43.211.020. By submitting an application to the Company for 211 Service, the applicant for such service thereby represents and warrants to the Company that the applicant is duly authorized to subscribe to 211 Service for the exchange(s) to which such application pertains, that the applicant will use the 211 Service furnished by the Company solely for purposes authorized by law, that such application does not violate any statute, rule, regulation or ordinance and that such application does not violate any court order to which the applicant may be subject.

(N)

SCHEDULE 27 (Continued)

211 SERVICE

CONDITIONS (continued)

3. Each application to the Company for 211 Service shall be submitted to the Company in writing.
4. 211 Service is subject to the availability of the 211 service code.
5. 211 Service is offered only where facilities and operating conditions permit.
6. The 211 service code is subject to reclamation by the Company. Neither the 211 Service subscriber, nor any applicant for 211 Service, acquires any rights to the 211 service code by reason of subscribing to, or receiving, 211 Service or by reason of being an applicant for such service.
7. 211 Service consists of a service arrangement, whereby callers within a local exchange may dial the 211 service code for that exchange. Upon such service code being dialed, the call will be redirected to a seven- or ten-digit telephone number (a "point-to number") previously designated by the 211 Service subscriber for the exchange from which the 211 call originates. Only a single point-to number may be designated for each originating exchange.

(N)

SCHEDULE 27 (Continued)211 SERVICECONDITIONS (continued)

8. A point-to number may be an 800 or 800-type number within the North American Numbering Plan, or, where operating conditions permit, a non-800-type seven- or ten-digit telephone number within the North American Numbering Plan. A 900 or 900-type number may not be designated as a point-to number.
9. In the event that the 211 Service subscriber desires to designate as a point-to number a permissible number that is other than an 800 or 800-type number and other than a number that is a local call from the Company exchange in which the 211 Service is being provided, the 211 Service subscriber shall designate the presubscribed toll carrier to which calls from such Company exchange to the designated point-to number shall be routed. The 211 Service subscriber shall make all necessary arrangements with such presubscribed toll carrier for the routing, transport and delivery of all such calls to the point-to number. The Company shall have no responsibility for making any such arrangements. The availability of such service shall also be dependent upon the presubscribed carrier designated by the 211 Service subscriber having (i) properly ordered the applicable access service from the Company, (ii) having not discontinued that access service, (iii) having paid timely all charges due the Company for such access service, and (iv) otherwise being in full compliance with the Company's tariff(s) applicable to such access service. Any and all toll charges applicable to calls to the point-to number shall be the responsibility of, and shall be paid to the presubscribed carrier by, the 211 Service subscriber.

SCHEDULE 27 (Continued)

211 SERVICE

CONDITIONS (continued)

13. 211 Service will not provide calling number identification in real time to the 211 Service subscriber. If the 211 Service subscriber desires this type of information, the 211 Service subscriber must subscribe to a compatible caller identification service at the terminating location, if such caller identification service is offered and if operating conditions permit.
14. In the event that two or more agencies, organizations or entities apply to the Company for 211 Service within the same exchange, the Company shall not be obligated to accept or fulfill either application, unless and until all but one of the applications is withdrawn and only one application for such service remains pending. In the event that an application for 211 Service is received by the Company for an exchange in which 211 Service is already being furnished by the Company, the Company shall have no obligation to accept or fulfill the new application.
15. 211 Service may be adversely affected by network congestion and other operating conditions. The Company does not undertake to ensure that calls dialed to the 211 service code will successfully reach the designated point-to number.

211 SERVICE

CONDITIONS (continued)

16. In addition to other reasons for which service may be suspended or discontinued by the Company, including (but not limited to) pursuant to other provisions of this Tariff and/or the rules and regulations of the Washington Utilities and Transportation Commission, the Company may suspend or discontinue 211 Service, in whole or in part, if any of the following occur(s):

- (a) The 211 Service subscriber ceases to be duly authorized pursuant to Federal or State law to receive 211 Service.
- (b) The 211 Service results in impairment of any service furnished by the Company, including, but not limited to, as a consequence of the 211 Service subscriber having failed to provide, procure or maintain sufficient facilities and/or services that are adequate to accommodate the volume of calls to the 211 service code.
- (c) Service to the point-to number at its location is discontinued.
- (d) If the point-to number is an 800 or 800-type number, such number is, or becomes, unavailable to callers from the exchange for which 211 Service has been ordered or from which such 211 Service is being provided.

Except as may otherwise be required by the rules and regulations of the Washington Utilities and Transportation Commission, such suspension or discontinuance may occur without notice to the 211 Service subscriber.

SCHEDULE 27 (Continued)

211 SERVICE

CONDITIONS (continued)

17. To the maximum extent permitted by law, each 211 Service subscriber and/or applicant for 211 Service shall indemnify, protect, defend and hold harmless the Company and its affiliates, and each of its and their respective officers, directors, trustees, shareholders, employees, agents and attorneys, from and against any and all suits, actions, claims, demands and judgments, and all costs, expenses and fees (including attorneys' fees) on account thereof, arising out of or resulting from, directly or indirectly, in whole or in part, the Company's provision, or failure or refusal to provide, 211 Service to such 211 Service subscriber and/or applicant, including, but not limited to, any and all loss, damage, expense and/or liability resulting from any infringement or claim of infringement, of any patent, trademark or copyright or any resulting claim of libel or slander.
18. The non-recurring charge specified under Rates and Charges in this Schedule for establishment, reestablishment or rearrangement of 211 Service applies on a per-exchange basis to each establishment, reestablishment or rearrangement of 211 Service, except the following:
- changes initiated by the Company solely for its convenience; and
  - changes of designated point-to number.

The non-recurring charge specified under Rates and Charges in this Schedule for each change of point-to number applies to each such change, on a per-exchange basis.

SCHEDULE 27 (Continued)211 SERVICECONDITIONS (continued)

19. This Schedule offers only service associated with the origination of calls to the 211 service code and the redirection of such calls as described elsewhere in this Schedule. The 211 Service subscriber shall be responsible for providing, or procuring from others, and maintaining all other services and facilities necessary for the delivery to the designated point-to number of calls to the 211 service code. At all times during which the 211 Service subscriber subscribes to 211 Service furnished by the Company, the 211 Service subscriber shall take all steps necessary to ensure that such other services and facilities will be available and adequate to accommodate the volume of calls from the Company's exchanges to each point-to number designated by the 211 Service subscriber for those exchanges. The 211 Service subscriber shall be responsible for the payment of all rates and charges applicable to such other services and facilities. In addition to other remedies available to the Company, if, in the judgment of the Company, such other services or facilities are, or become, inadequate, or if the use of the 211 Service impairs, or threatens to impair, any service offered by the Company, the Company may, without liability, take protective measures, including, but not limited to, curtailing access to the 211 Service or the 211 service code.

SCHEDULE 27 (Continued)

211 SERVICE

CONDITIONS (continued)

20. The service offered by this Schedule is solely for the benefit of the 211 Service subscriber, and not for the benefit of any other person or entity. The Company's total liability for any failure, impairment, inoperability, error, deficiency or inadequacy of 211 Service shall be limited to the Company's recurring monthly charge incurred by the 211 Service subscriber for such service for the duration of such failure, impairment, inoperability, error, deficiency or inadequacy. In the event that the foregoing limitation of liability is contrary to law, it shall be deemed modified to the minimum extent necessary to render it lawful and enforceable.
21. Directory listings associated with 211 Service will be provided in accordance with Schedule 11 of this Tariff. For such purposes, 211 Service shall be deemed to be a business class of service.
22. The 211 Service subscriber is responsible for obtaining all necessary permissions, licenses, written consents, waivers and releases, and all other rights from all persons whose work, statements or performances are used in connection with the service, and from all holders of copyrights, trademarks, and patents used in connection with the service

SCHEDULE 28 (Continued)811 SERVICECONDITIONS

1. 811 Service is a three-digit local dialing arrangement available in specified areas for the routing, via voice grade facilities, of calls to One Call Centers. Pursuant to Order 05-59, issued by the Federal Communications Commission ("FCC"), in CC Docket No. 92-105, the 811 service code is assigned to be used as the abbreviated dialing code to be used by state One Call notification systems in order to provide a means for excavators and the general public to notify underground facility operators in advance of their intent to engage in excavation activities. A One Call notification system is a communication system established by operators of underground utilities and/or state governments in order to provide a means for excavators and the general public to notify facility operators in advance of their intent to engage in excavation activities. A One Call notification system includes one or more One Call Centers. As used in this Schedule, "One Call Centers" has the same meaning as it has in the above-mentioned FCC Order 05-59.
2. Only agencies or entities duly authorized by or pursuant to the laws of the State of Washington to subscribe to and receive 811 Service in, or to operate a One Call Center serving, the relevant service area may subscribe to 811 Service offered by the Company. By submitting an application to the Company for 811 Service, the applicant for such service thereby represents and warrants to the Company that the applicant is duly authorized to subscribe to 811 Service for the exchange(s) to which such application pertains, that the applicant will use the 811 Service furnished by the Company solely for purposes authorized by law, that such application does not violate any statute, rule, regulation or ordinance and that such application does not violate any court order to which the applicant may be subject.

In addition to other reasons for which service may be suspended or discontinued by the Company, including (but not limited to) pursuant to other provisions of this Tariff and/or the rules and regulations of the Washington Utilities and Transportation Commission, the Company may suspend or discontinue 811 Service, in whole or in part, if any of the following occur(s):

- (a) The 811 Service subscriber ceases to be duly authorized pursuant to Federal or State law to receive 811 Service.
- (b) The 811 Service results in impairment of any service furnished by the Company, including, but not limited to, as a consequence of the 811 Service subscriber having failed to provide, procure or maintain sufficient facilities and/or services that are adequate to accommodate the volume of calls to the 811 service code.
- (c) Service to the point-to number at its location is discontinued.
- (d) If the point-to number is an 800 or 800-type number, such number is, or becomes, unavailable to callers from the exchange for which 811 Service has been ordered or from which such 811 Service is being provided.

Except as may otherwise be required by the rules and regulations of the Washington Utilities and Transportation Commission, such suspension or discontinuance may occur without notice to the 811 Service subscriber.

SCHEDULE 28 (Continued)

(N)

811 SERVICE

CONDITIONS (continued)

17. To the maximum extent permitted by law, each 811 Service subscriber and/or applicant for 811 Service shall indemnify, protect, defend and hold harmless the Company and its affiliates, and each of its and their respective officers, directors, trustees, shareholders, employees, agents and attorneys, from and against any and all suits, actions, claims, demands and judgments, and all costs, expenses and fees (including attorneys' fees) on account thereof, arising out of or resulting from, directly or indirectly, in whole or in part, the Company's provision, or failure or refusal to provide, 811 Service to such 811 Service subscriber and/or applicant, including, but not limited to, any and all loss, damage, expense and/or liability resulting from any infringement or claim of infringement, of any patent, trademark or copyright or any resulting claim of libel or slander.
18. The non-recurring charge specified under Rates and Charges in this Schedule for establishment, reestablishment or rearrangement of 811 Service applies on a per-exchange basis to each establishment, reestablishment or rearrangement of 811 Service, except the following:
- changes initiated by the Company solely for its convenience; and
  - changes of designated point-to number.

The non-recurring charge specified under Rates and Charges in this Schedule for each change of point-to number applies to each such change, on a per-exchange basis.

SCHEDULE 28 (Continued)

(N)

811 SERVICECONDITIONS (continued)

19. This Schedule offers only service associated with the origination of calls to the 811 service code and the redirection of such calls as described elsewhere in this Schedule. The 811 Service subscriber shall be responsible for providing, or procuring from others, and maintaining all other services and facilities necessary for the delivery to the designated point-to number of calls to the 811 service code. At all times during which the 811 Service subscriber subscribes to 811 Service furnished by the Company, the 811 Service subscriber shall take all steps necessary to ensure that such other services and facilities will be available and adequate to accommodate the volume of calls from the Company's exchanges to each point-to number designated by the 811 Service subscriber for those exchanges. The 811 Service subscriber shall be responsible for the payment of all rates and charges applicable to such other services and facilities. In addition to other remedies available to the Company, if, in the judgment of the Company, such other services or facilities are, or become, inadequate, or if the use of the 811 Service impairs, or threatens to impair, any service offered by the Company, the Company may, without liability, take protective measures, including, but not limited to, curtailing access to the 811 Service or the 811 service code.

SCHEDULE 28 (Continued)

811 SERVICE

CONDITIONS (continued)

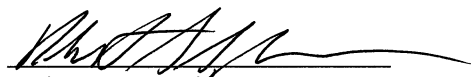

20. The service offered by this Schedule is solely for the benefit of the 811 Service subscriber, and not for the benefit of any other person or entity. The Company's total liability for any failure, impairment, inoperability, error, deficiency or inadequacy of 811 Service shall be limited to the Company's recurring monthly charge incurred by the 811 Service subscriber for such service for the duration of such failure, impairment, inoperability, error, deficiency or inadequacy. In the event that the foregoing limitation of liability is contrary to law, it shall be deemed modified to the minimum extent necessary to render it lawful and enforceable.
21. Directory listings associated with 811 Service will be provided in accordance with Schedule 27 of this Tariff. For such purposes, 811 Service shall be deemed to be a business class of service.
22. The 811 Service subscriber is responsible for obtaining all necessary permissions, licenses, written consents, waivers and releases, and all other rights from all persons whose work, statements or performances are used in connection with the service, and from all holders of copyrights, trademarks, and patents used in connection with the service.
