Cancellation will be effective on the date specified on the notice. Separate accounts for the same Customer are also subject to this provision.

Service may be canceled by the Customer only on proper written notice to the Company. In the event the Company is unable to disconnect the Customer's access line by the requested cancellation date, the Customer will be responsible for any usage over the line.

The discontinuance of service by the Company pursuant to this Section does not relieve the Customer of any obligations to pay the Company for charges due and owed for service(s) furnished up to the time of discontinuance.

The remedies set forth herein shall not be exclusive and the Company shall at all times be entitled to all rights available to it under either law or equity.

Except as otherwise provided in this price list or as specified in writing by the party entitled to receive service, notices may be given orally or in writing to the person(s) whose name(s) and business address(es) appear on the executed service order.

The charge will be equal to the non-recoverable portion of expenditures or liabilities incurred expressly for the Customer and the sum of the monthly recurring or minimum usage amount remaining through the end of the term. The Customer is liable for any charges assessed by the interconnecting telephone company providing the dedicated local access line.

Subject to the Company's right to cancel or suspend services as otherwise provided in this price list, the minimum service period is 30 days. Termination by Customer is effective only after receipt by the Company of a 10 days written notice of cancellation or authorized notice of change of presubscribed carrier. Billable time for service is the duration of time between the called station answering and the called or calling station disconnecting; provided that, duration may be rounded in accordance with specific descriptions in this price list.

FRACTIONAL CHARGES

Charges for a fractional part of a month are calculated by counting the number of days remaining in the billing period after service is furnished; then dividing that number of days by the number of days in the billing period. The result is then multiplied by the applicable monthly service charge to arrive at the appropriate fractional monthly service charge.

For each call, the minimum charge shall be the applicable charge for the initial billing increment of use with use in excess of the initial billing increment during a call charged at the applicable rate per minute with the fractional billing increments, if any, of each call rounded up to the next highest whole billing increment.

All 800 calls are billed at a single flat rate per minute regardless of time of day or jurisdiction. 800 calls can originate from every city within the U.S. Mainland, including Alaska, Hawaii, Puerto Rico, and U. S. Virgin Islands. Calling rates from Puerto Rico and Virgin Islands will be higher.

The Company reserves the right to require an applicant for the Company 800 Service to supply the following information when requesting service: an initial traffic forecast; identification of anticipated busy hour; identification of its geographical marketing target areas; and a schedule of marketing and promotional activities. The Company may also require that a new traffic forecast be submitted by the Customer quarterly after service is initiated.

The Company's 800 Service is furnished upon condition that the Customer contracts for adequate facilities to permit the use of this service without injurious effect upon it or any service rendered by the Company. The Company may terminate or refuse to furnish 800 Service to any applicant, without incurring any liability and without notice to the Customer, if the use of the service would interfere with or impair any service rendered by the Company.

The Customer must obtain an adequate number of access lines for the Company 800 Services to handle the Customer's expected demand in order to prevent interference or impairment of this service or any other service provided by the Company considering: total call volume; average call duration; time-of-day characteristics; and peak calling period. The Company, without incurring any liability and without notice to the Customer, may disconnect or refuse to furnish the Company 800 Service to any Customer that fails to comply with these conditions.

Each 800 Service telephone number must be placed in actual and substantial use by the Customer. "Substantial use" shall mean a pattern of use that demonstrates an intent on the Customer's part to employ the number for the purpose for which it was intended; namely, to allow callers to reach the Customer, as indicated, for example, by at least 30 average monthly minutes of use or more. Any 800 telephone number associated with the Company 800 Service that has not been placed in actual and substantial use during the first 60 day period after service activation may be redesigned as a spare number in the Company 800 database by the Company upon written notice to the Customer.

If the Customer requests assignment of a specific 800 Service telephone number, the Company may require the Customer to submit a number reservation agreement form to the Company. At no time may a Customer have more than 10 numbers

reserved. Any reservation shall be for no more than 60 days and shall be subject to a reservation fee which will be credited to Customer's unpaid balance after the Company 800 Service has been in actual and substantial use for a consecutive 60 day period.

Nothing in this Section, or in any other provision of this price list, or in any marketing materials issued by or on behalf of the Company, shall give any person, including prospective Customers who have reserved an 800 telephone number hereunder or Customers who subscribe to and use the Company 800 Service or their transferee or assigns, any ownership interest or proprietary right in any particular 800 number.

The Company's 800 Service Customer may retain the use of their 800 number assignments, even following changes in their 800 carrier and/or Responsible Organization (Resp. Org.).

If a Customer places an order for the Company to carry Customer's already existing 800 number service, the Customer shall provide to the Company the contact names, telephone number and address of the Customer's Responsible Organization (Resp. Org.). Upon subscription to the Company 800 Service, the Customer may execute a Letter of Authorization to transfer Resp. Org. responsibility of its 800 number(s) to the Company Resp. Org. in writing within 48 hours of the change. The Customer is responsible for all outstanding indebtedness for services provided by a previous Resp. Org. or 800 service carrier. The Company assumes no responsibility or liability with respect to any obligations of Customer to such previous service providers existing at the time of transfer to the Company.

Subject to execution of a Resp. Org. Service Agreement between the Company and the Customer, unless the Customer requests another Resp. Org., the Company Resp. Org. functions include: search for and reservation of 800 numbers in the SMS/800; creating and maintaining the 800 number Customer record in the SMS/800; and provision of a single point of contact for trouble reporting.

Where the Company serves as the Resp. Org. for an 800 Service Customer, the Company will, at the Customer's request, subscribe to 800 Directory Listing for the 800 number(s) assigned to the Customer. A charge for 800 Directory Listings will apply as set forth in this price list. In the event that a Customer transfers its 800 service to another Resp. Org., the Company shall cease to subscribe to 800 Directory Listing Service on behalf of the Customer and the Customer is responsible for assuring that 800 Directory Listing Service is maintained through the new Resp. Org. Customer is responsible for payment of any outstanding 800 Directory Listing charges, including any unexpired portion of any minimum period applicable to such service, and the Company shall have no liability for any interruption or other delay, error, mistake, omission or other defect occurring in connection with the transfer of 800 Directory Listing responsibility.

Where the Company serves as the Resp. Org. for an 800 Service Customer, it will, at the Customer's request, subscribe to Vertical Features obtained from Local Exchange Company access price lists. When an 800 Service Customer uses Vertical Features obtained by the Company from Local Exchange Company price lists, a charge will apply. This charge may not be counted toward the attainment of any volume or revenue commitment and will not be discounted.

In the event that a Customer cancels its 800 Service, the Customer may elect to retain the Company as its Resp. Org.

In the event that a Customer cancels its Company Resp. Org. or 800 Service, the Customer shall be responsible for all outstanding indebtedness to the Company and any outstanding charges applicable to any service obtained by or on behalf of the Customer by the Company.

It is the Customer's responsibility to provide answer supervision back to the Company point of connection even when the Company 800 Service is connected to switching equipment or a Customer-provided communications system. In such case, the equipment or system must provide appropriate supervision so that the measure of chargeable time begins upon delivery of the call to the Customer's switching equipment or communications system and ends upon termination of the call.

800 Feature Charges - Feature Charges are determined by the specific feature requested by an 800 Customer. These charges are in addition to 800 usage charges and are not subject to discounting unless specifically indicated.

The Company Resp. Org. Charges - Where the Company serves as a Resp. Org. for a non-Company 800 Service Customer, the Company will pass on the price listed Local Exchange Carrier charges for SMS/800 Database and related services.

DIRECTORY ASSISTANCE

Long Distance Directory Assistance is available to Customers of Company's Service. The charge applies to each call made to the Directory Assistance Operator regardless of whether the Directory Assistance Operator is able to furnish the requested telephone number. A maximum of two requests for telephone numbers may be made on each call to the Directory Assistance Operator.

A credit allowance for a Directory Assistance call will be provided at the Customer's request after experiencing poor transmission quality, receiving an incorrect telephone number, or inadvertently misdialing the intended Directory Assistance number.

Handicapped Customers who qualify for an exemption from Directory Assistance charges due to visual or other physical disabilities will be required to submit a written letter of verification to the Company. Each Directory Assistance billed call will appear on the subsequent month's bill as a credit.
